

COCHLETTE & FURFLY

IN COLLABORATION WITH @THE_FLUFFY_FOLIO

COCHLETTE

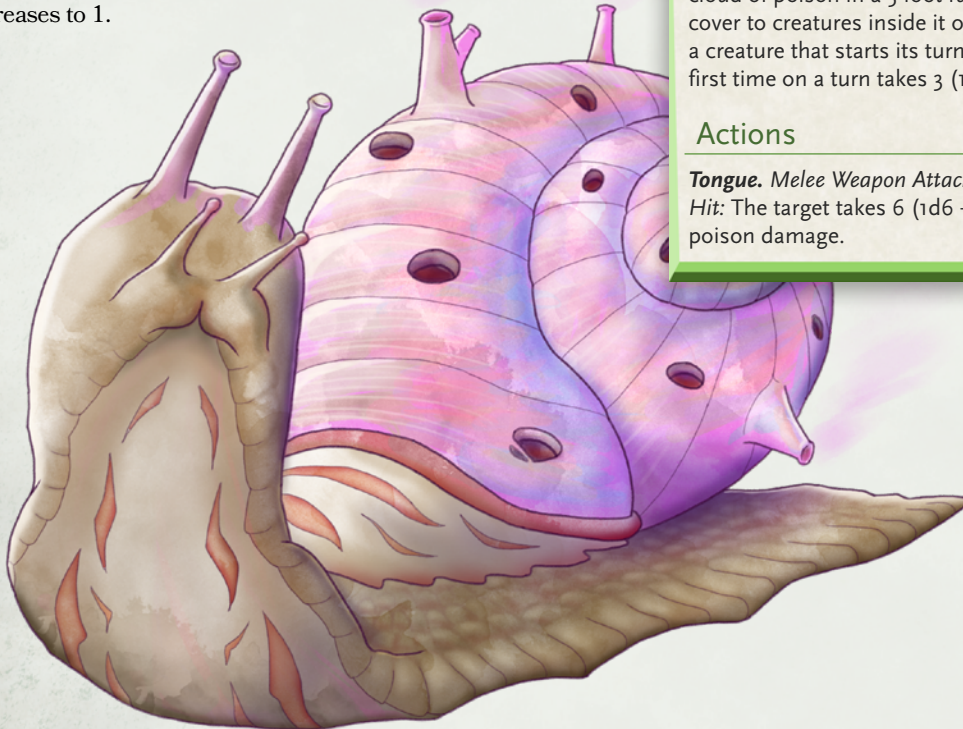

In the heart of the fey-touched wilderness, the cochlette leisurely wanders, feeding on the decomposing mushrooms, plants, and fallen logs on the forest floor. They are natural scavengers responsible for clearing an ecosystem of contaminants and transforming them into nutrients.

Noxious Aura. Due to their internal fey biology, the cochlette converts its food into poison and magically emits it in a cloud from its shell and body. This releases harmful toxins from the ecosystem, and serves as effective deterrents for hungry predators.

Mutual Symbiosis. While most creatures avoid the poison-wreathed cochlette, the **furfly** instead makes this their home. Thanks to their poison immunity, the furfly can feed on nutrients caught in the cochlette's shell and provide the snail with extra energy in return. Together, they become a formidable encounter for a group of adventurers.

SYMBIOTIC ENCOUNTER

A cochlette typically has 2 (1d4) furflies accompanying it. While a cochlette has at least 2 friendly furflies, its CR increases to 1.

COCHLETTE

Small fey, unaligned

Armor Class 17 (natural armor)
Hitpoints 22 (4d6 + 8)
Speed 10 ft., climb 10 ft.

STR	DEX	CON	INT	WIS	CHA
16 (+3)	2 (-4)	14 (+2)	2 (-4)	10 (+0)	2 (-4)

Damage Resistance poison
Condition Immunities prone
Senses darkvision 60 ft., passive Perception 10
Challenge 1/2 (100 XP)

Magic Resistance. The cochlette has advantage on saving throws against spells and other effects.

Noxious Aura. The cochlette is constantly emits a translucent cloud of poison in a 5-foot radius. This cloud provides half cover to creatures inside it other than cochlettes. Additionally, a creature that starts its turn in the cloud or enters it for the first time on a turn takes 3 (1d6) poison damage.

Actions

Tongue. *Melee Weapon Attack:* +5 to hit, reach 5 ft., one target.
Hit: The target takes 6 (1d6 + 3) piercing damage plus 3 (1d6) poison damage.
