

Pandora's Box Walkthrough

Version 0.16

General Information

The game uses 2 main types of points:

- **Corruption** for the Girlfriend
- **Submission** for the Boyfriend

If a choice menu has a greyed out option like this:

It means that you lack points in either **Corruption** or **Submission**.

There is also other hidden points like, for example: "**lesbian**" points, which if you have enough will unlock further scenes with Girlfriend involving girl on girl action.

Main Story

The story follows the perspective of both the Girlfriend and the Boyfriend. You play through both of their daily lives.

Certain choices can give different dialogue/outcome in a later scenario.

For example: Day 1-3 (**version 0.1**) you get the option for a footjob sex scene. If you keep requesting that, you will get 3 different dialogue scenes each time.

In Day 9 (**version 0.5**) playing through the Girlfriend's perspective, you go to a meeting with a potential investor for the company you work in, and if you go through with his demands you get rewarded with a bit of cash afterwards. That cash you can use to buy yourself a new outfit later in the same day or you will have to borrow money from your best friend (**Riley**) instead. That's just two of many different dialogue/scenes that can happen depending on your choices.

This Walkthrough will show you what amount of points you need for each type of choice and how much points you gain through choices.
