Zelda (BotW version) being turned into a double of Urbosa from the same game. Urbosa would be hugging her new "twin" from behind and touching and teasing her sexily. Zelda would be almost naked with only a few strands of her clothes still onto her and looking pretty happy and turned on by her new body. To further drive across the "double" is/was Zelda, she may still have a few strands of blonde hairs, instead of being full red-haired.

She pleads with Yubaba not to turn her into a pig like her parents. Yubaba then feels generous and thanks Haku for apprehending the girl; Chihiro is then forced to be a "mate" for Haku for his services as Yubaba's right hand man. Yubaba then forces Chihiro on all fours, as she then grabs her t-shirt, pleading with Yubaba to stop, as her body "gradually" begins to shift. Her back arches as her t-shirt rips to reveal her small

breasts and small wings; then her red shorts rip to reveal a small furry white tail. Moaning from her transition, Chihiro's small hands start shifting as her small fingertips form five small sharp talons . FOCAL PT: As she looks back at her newly formed dragon-like tail, Chihiro then begins to feel a tingling in her small human bare feet. As the bottoms of her feet bend and her toes curl, her soft nails transition into five small sharp talons as one foot starts becoming "padded".

reddit.com/r/ReasonableFantasy/comments/te0li1/what_if_ahsoka_raised_luke_leia_arbor_draws

So for my commission, in order to keep them safe, she uses the force to turn them both into her. This is an AP TF TG of Luke and Leia as young children turning into Ahsoka Tano.
