Chapter Four

This is da lsat 1 gujys, I've run ut of creativity...

I was about to command Tiffany to stop but then her boobs crashed down on my face, the power I once wielded was now mute. Her boob covered my face, and I felt myself sink into the vast warmth of her boobage. I couldn't lie, it felt good, especially as she touched my cock, guiding it into her.

The warmth washed over me and I tried to gasp, to no avail. I was seriously starting to worry about oxygen now.

I reached my hands up and tried to move her breasts to stop them from smothering me but for how malleable they were, they would just move around my grasp and cover my mouth again. The thought of speaking was no longer my primary goal as I was struggling for oxygen.

Yet.

I was in nirvana, a bliss unknown where I was feeling a pleasurable urge being taken care of.

The magic... It must be... Enhancing things...

I hoped that the secondary part of her magic wouldn't take hold where I might end up getting my soul sucked out or something. Right now, I was more focused on just trying to breathe.

She bounced on my throbbing member, and I felt bliss wash over me, a pleasure completely beyond what I had ever known or could conceive of, her boobs undulating against my head as she rode me. I was still trying to fight my impending suffocation, but I was starting to really enjoy the feeling of her boobs in my arms.

I noticed as Tiffany increased her pace, I was able to feel a lightness of pressure as she lifted herself up, I used that brief reprieve to swallow in a huge gasp of air.

I enjoyed the feeling of her still bouncing on my cock all the more now that I could breathe.

Each bounce I felt her boobs become lighter.

The A cup command...

I knew I just needed to let this ride out and she would eventually become small enough for me to speak and I could issue the next command.

It felt so good though, the feeling of her sex clamping down on me, it was like she was in 100% control of every muscle down there and she was milking me, the pleasure was intense. The feeling of her boobs against me, it

was a lot, despite being so comically large, the very feel of her flesh, in such abundance, covering my body, my arms barely able to reach around, I couldn't understand how my lust was surpassing all over feelings within me.

The magic...

A convenient excuse maybe, but one I would have to wrestle with if I ever got out of here. The pounding of her on my dick was starting to build.

My impending orgasm put a new worry in my head though, the crashing of her boobs against my chest made me realise that she wasn't human, she was most certainly a demon, a succubus no doubt.

If I cum... I'm dead...

It became a test of resistance, but the magic was drawing me closer to my damnation.

Shit... Fuck... Crap!

The welling up inside was becoming too strong, too much, I wasn't going to make it, I grit my teeth and tensed my body.

I'm... Going to...
