

pixie trix comix

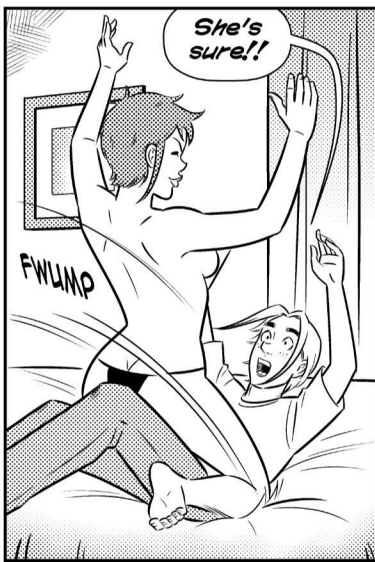

It's the classic story: girl meets boy, girl kisses boy to get back at cheating ex, boy reads too much into it but ends up living with girl anyway. And that's only the start of this comical cast of comics creators, as one comics shop's fight to stay relevant leads to in-store wrestler appearances, an evil twin dilemma, and more sexual tension than a Joker-Batman yaoi slashfic. It's all part of the unpredictable mix cooked up in Pixie Trix Comix!
