

The edge of the
Gerudo Desert

Just a bit longer my master.
Soon we will end the cycle of rebirth.

Meanwhile, in the
jungles of Rue, Link
and Navi search for
the ancient treasure
hidden deep within the
Temple of Change**

HEY!

The map said it was in
this direction right?

**Writer's note: For clarification on Link and Zelda's situation read Hyrule's Hero Prologue: The Snake Princess

LOOK!

That must be it! It's kind of small. Oh it must all be underground! The landscape in Rue changes pretty quickly, so that'd make sense right?

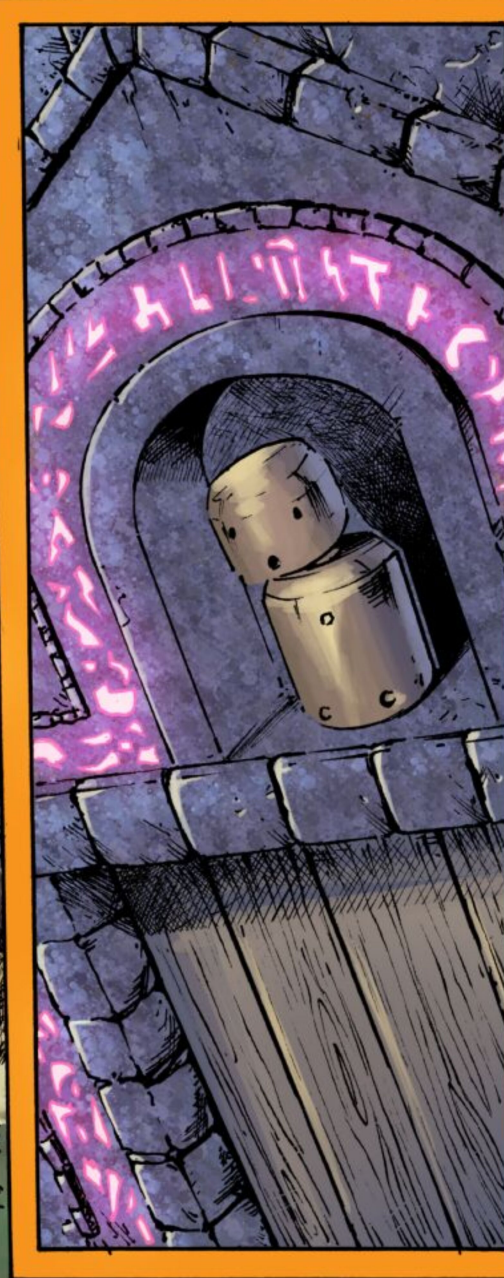

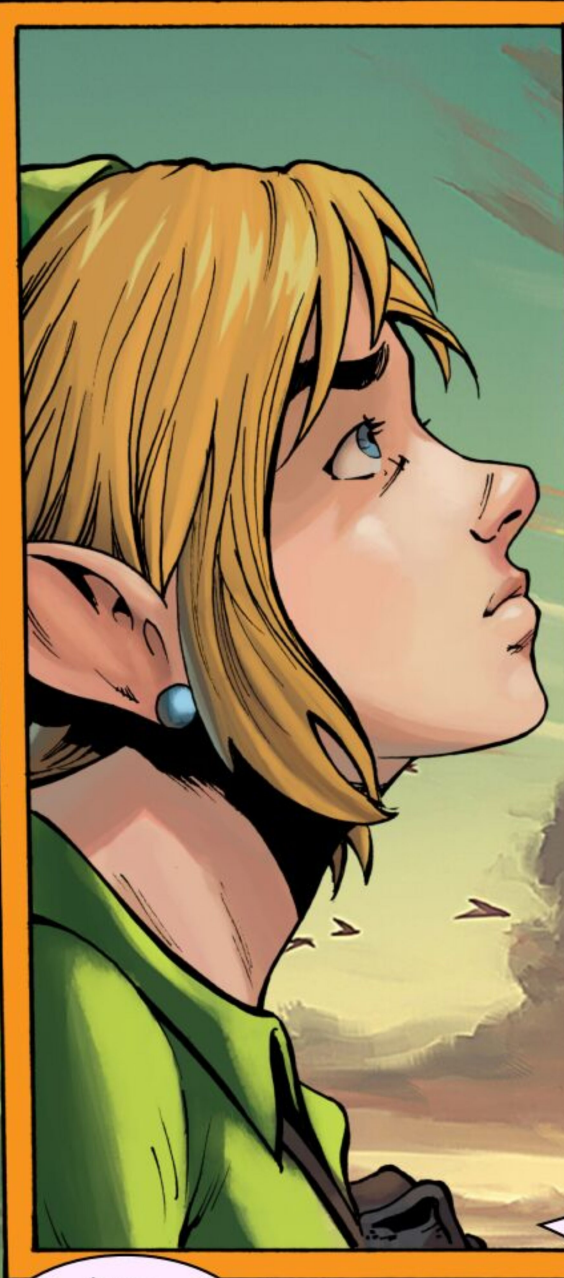

... I forgot that you aren't much of a talker.

So Kamon said to recite the activation phrase so we can open the door right?

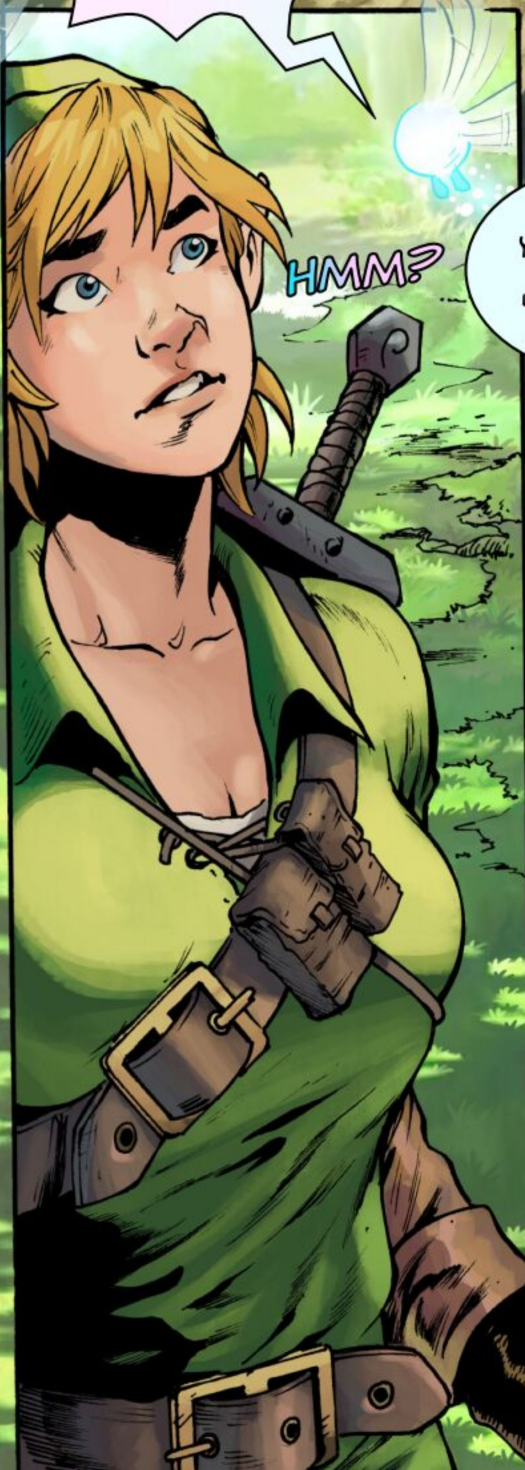

Oh goddess of change, hear our plea. Let us enter your temple, whatever the cost may be.

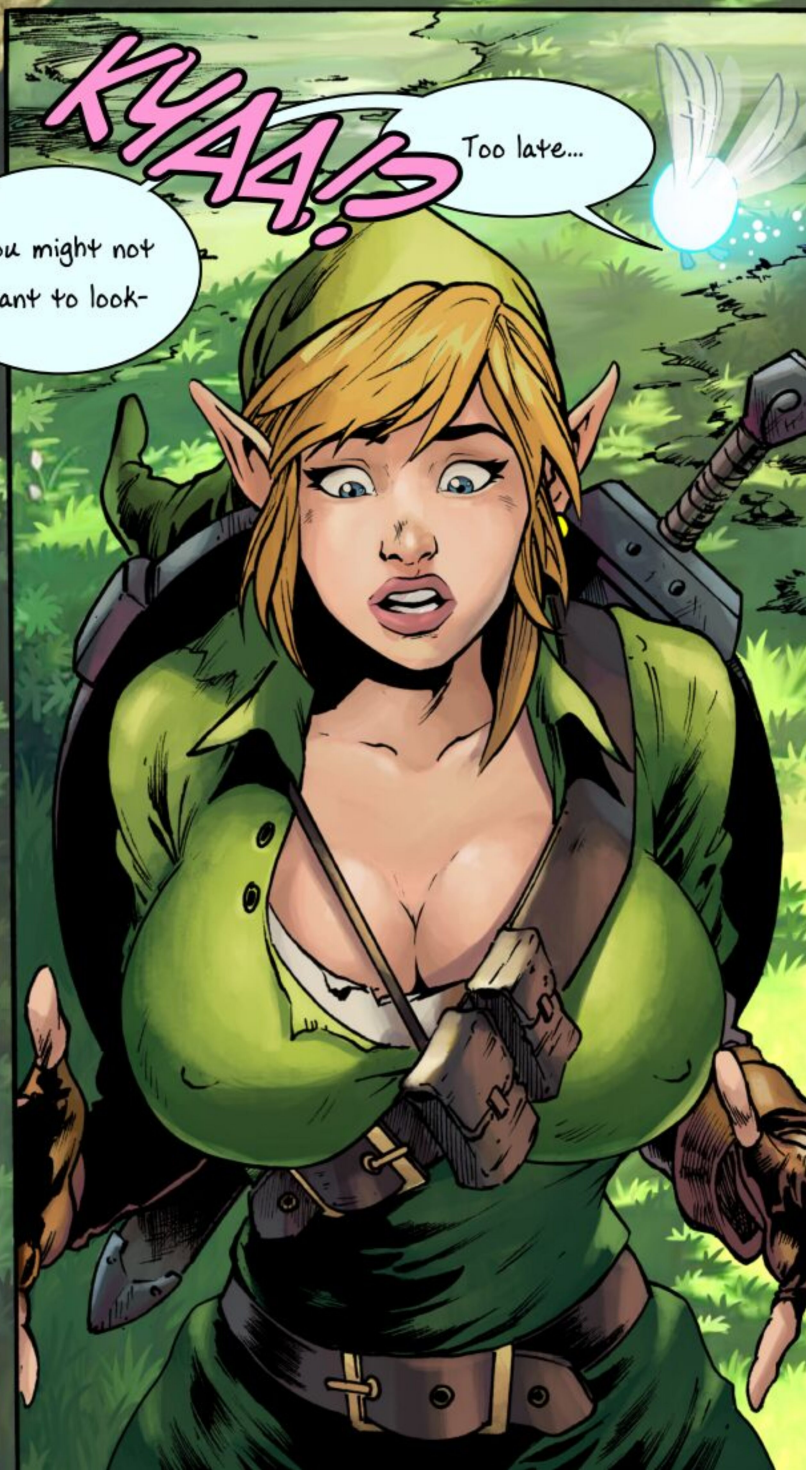

WOAH
WHAT THE-!?
LINK!

Did it
work? I don't feel
any differ-

HMM?

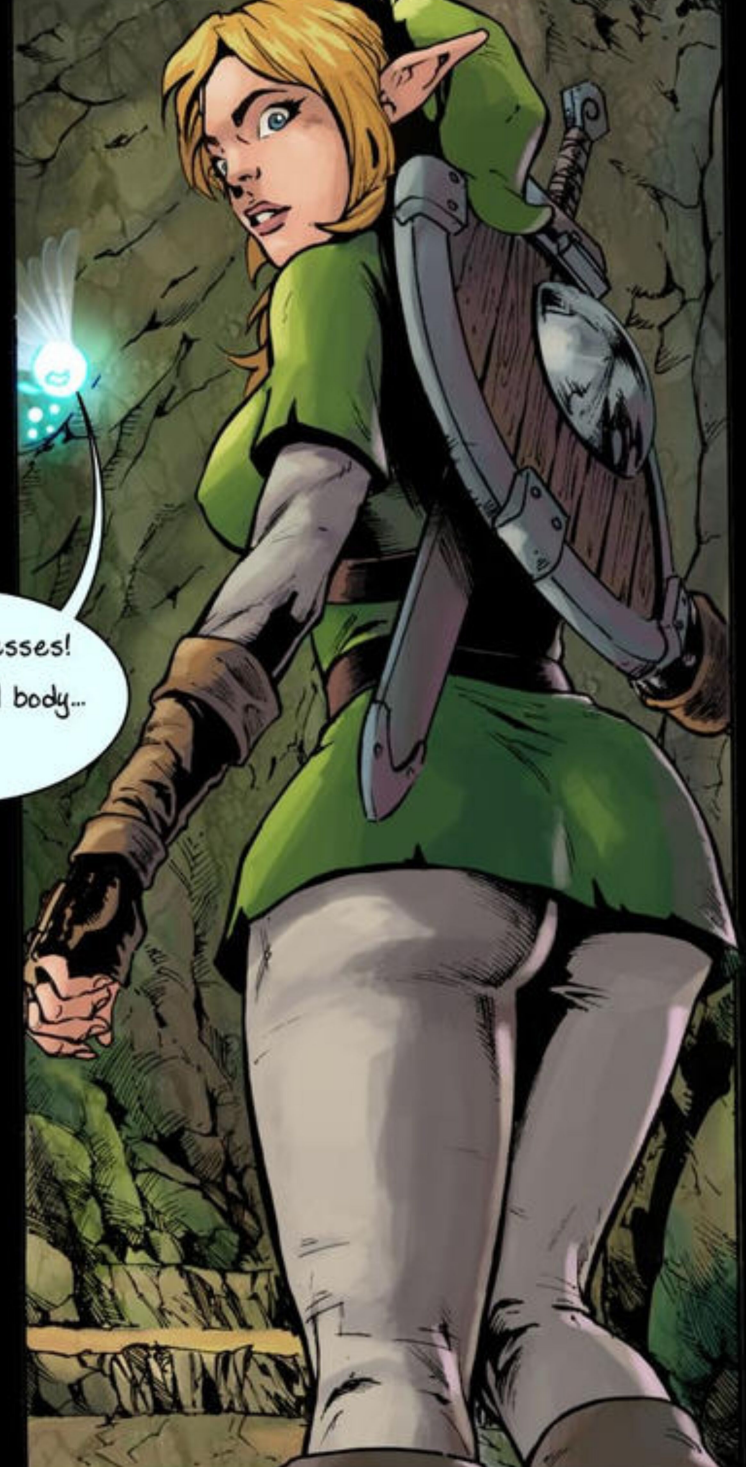

You might not
want to look-

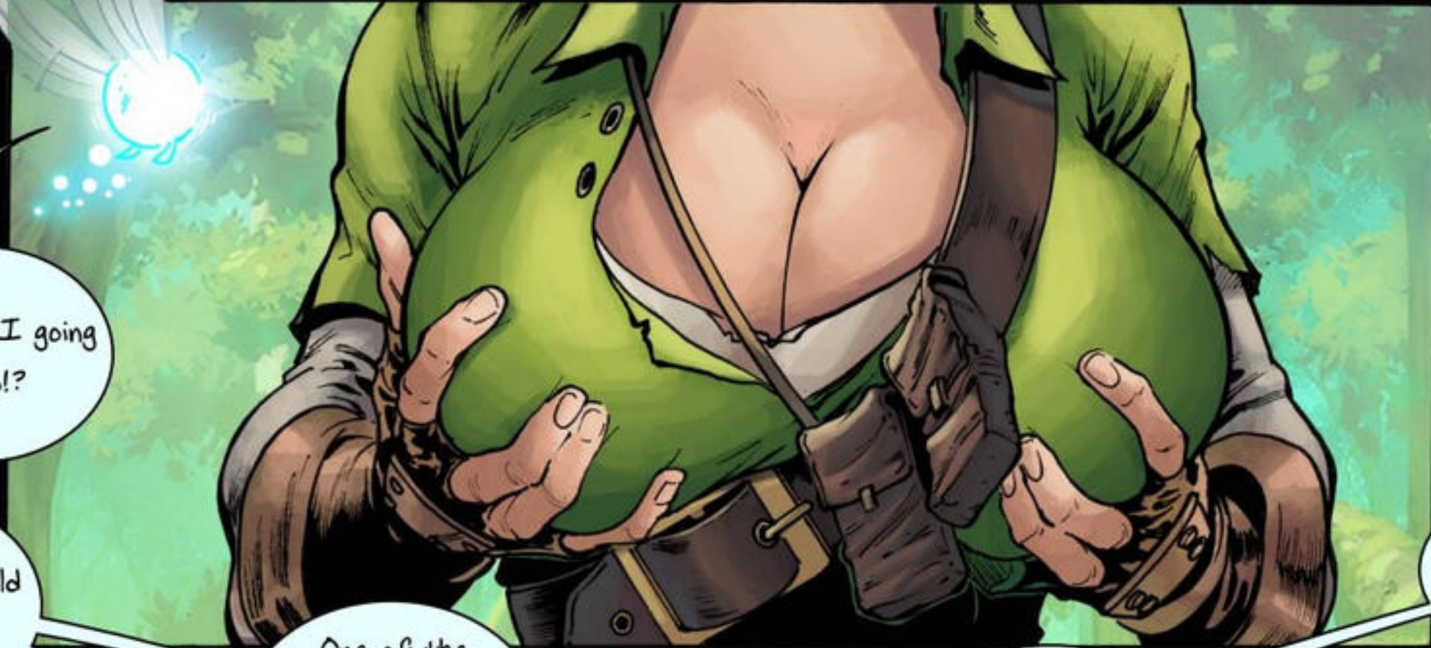

Too late...

Your chest is
hu-What the!? My voice!
I'm a guy!

Oh my Goddesses!
My beautiful body...
gone!

What am I going
to do!?

Maybe we should
go back.

One of the
Great Faries might
be able to reverse
this...

I heard
about a witch in
Farron Woods...

Though they
might find it
funny...

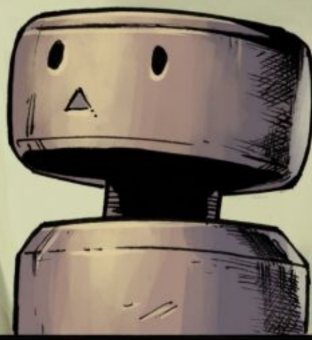

HMP!

OHH...

...Or we could see about some Gerudo Magic...

...Although last time they were complaining about the 'No Voes Allowed' rule. They Probably wouldn't help.

Ugh! I can't live like this! Look at me I'm... UGLY!

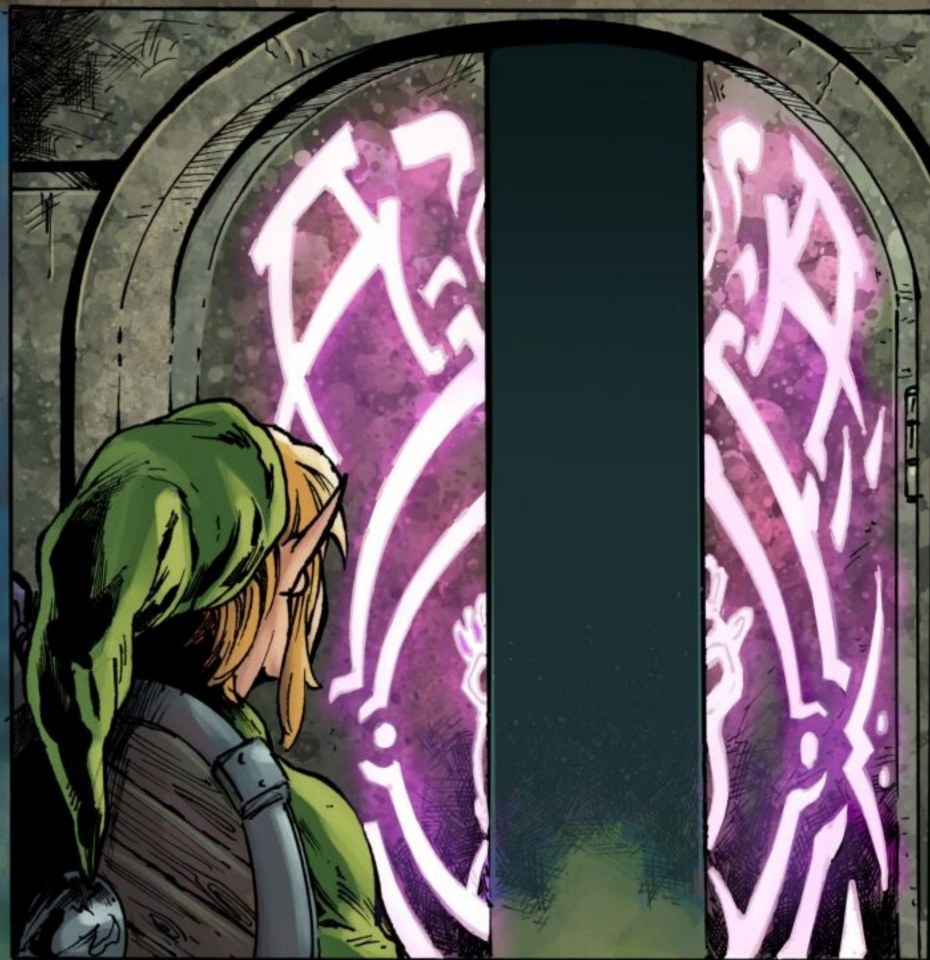

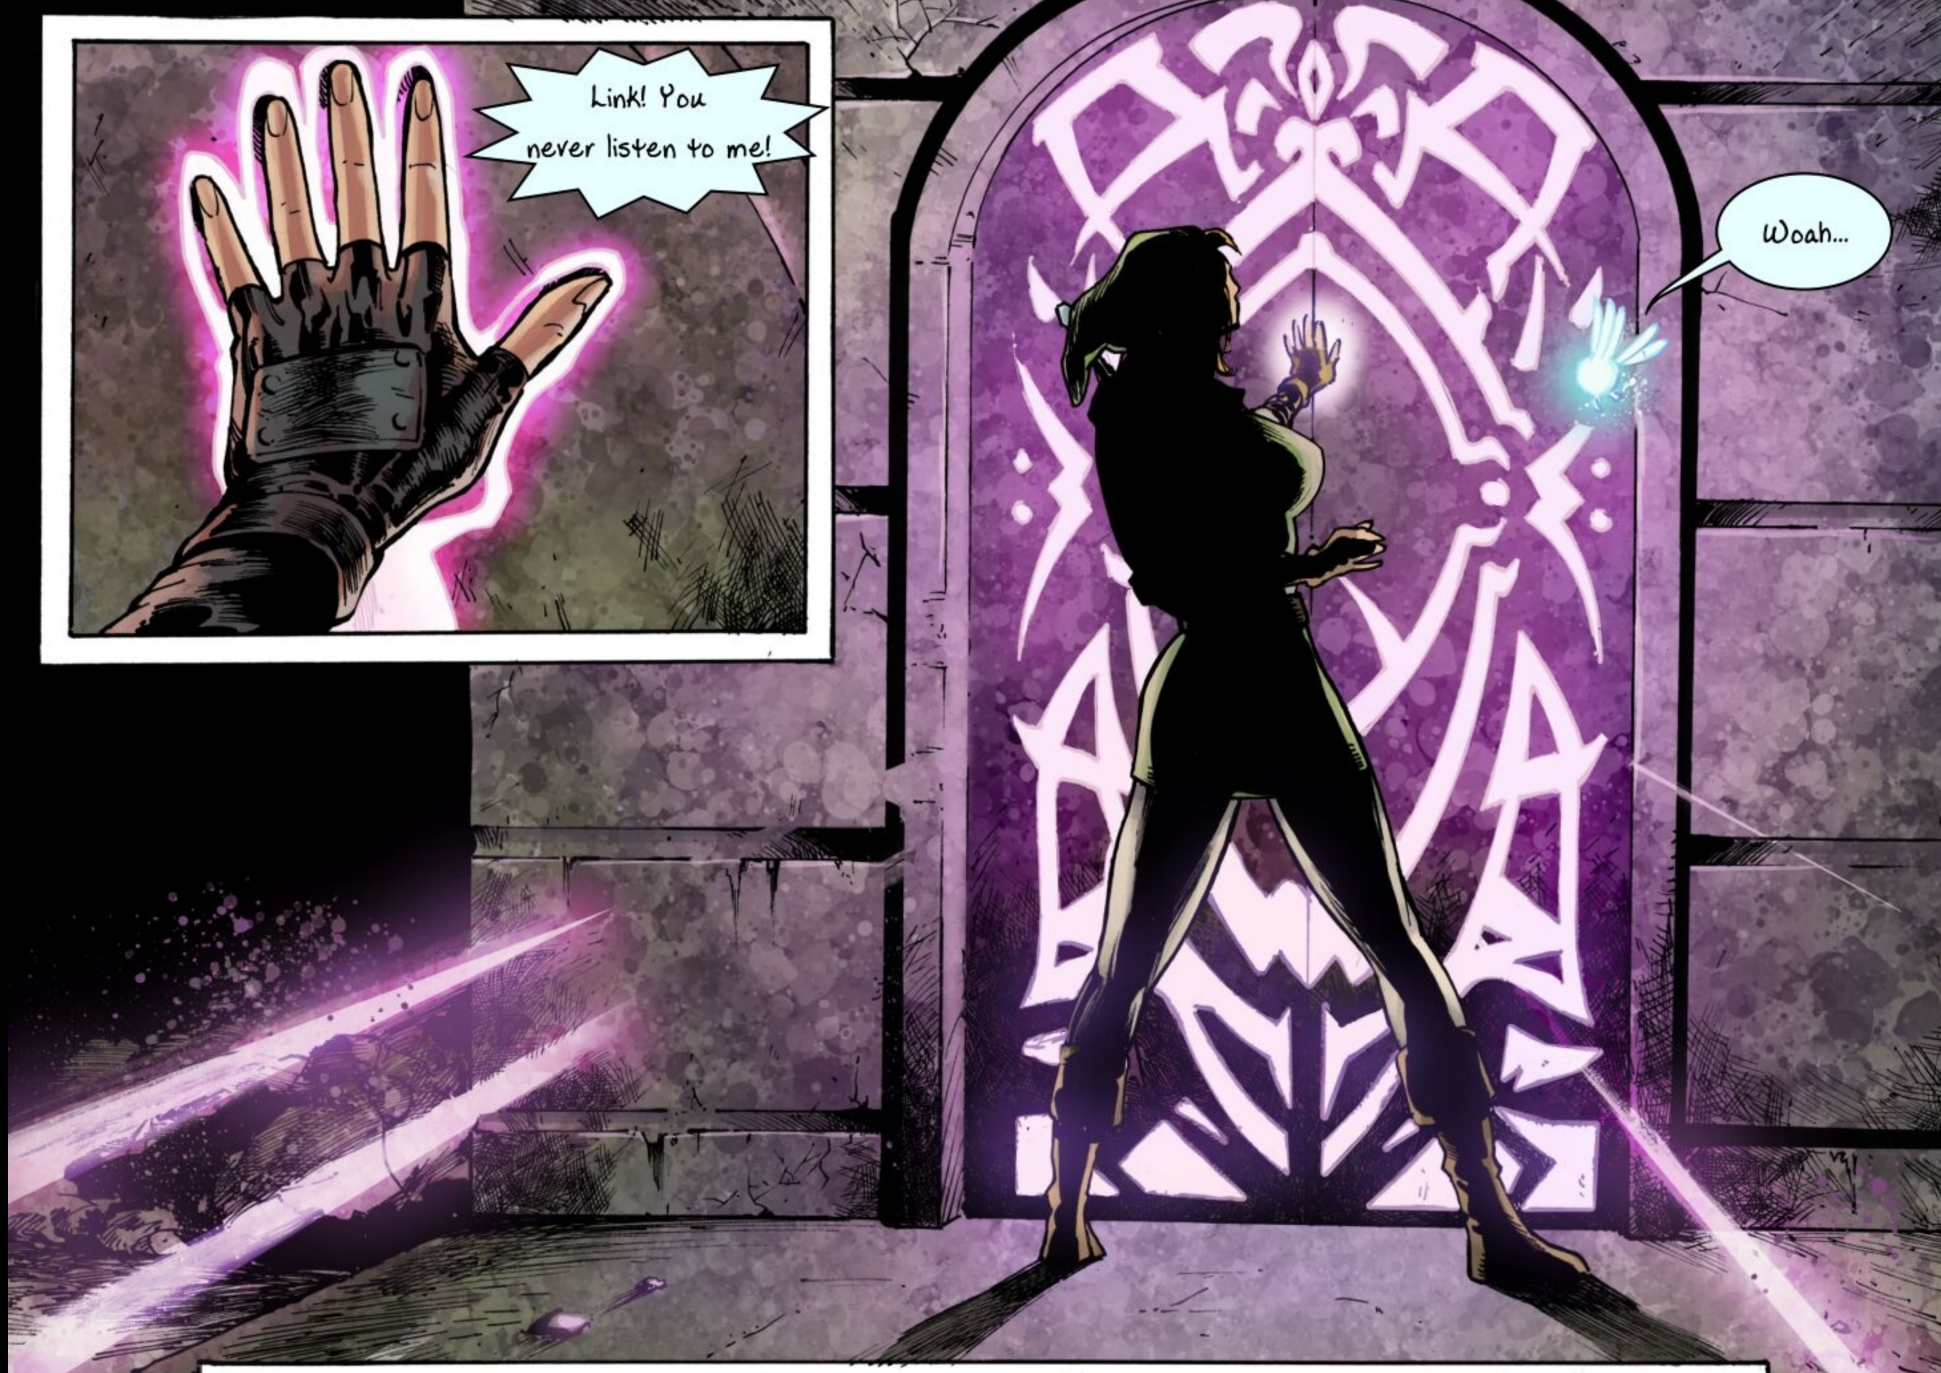

Wha-What are you doing?

Link! Don't touch anything! What if it turns us into something else!

Careful.
Kamon said there
Magic traps all over
the place...

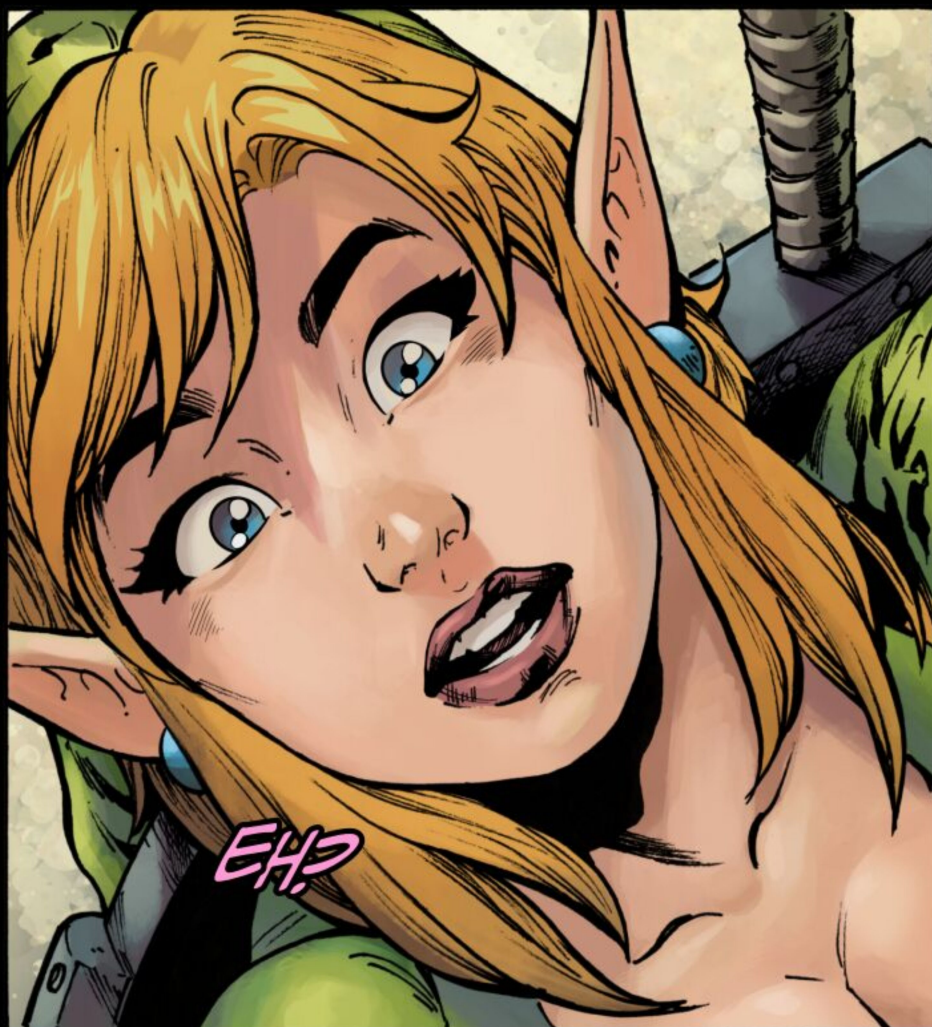

Woah! This place is
WAY bigger on the
inside!

Hey look! It says
'The hasty will hold their
ground forever. The cautious
can see the best way
forward.'
