

In the walkthrough, I will describe the best path with the lowest content possible. I will describe how to avoid fetishes and how to get all that you like. Every **bold** row is a selection in the game that you will have to choose to get to the best path. Underlined rows indicate different scenes in the story where the game has different alternative content. The **option** that will control certain fetishes will be of this color.

In **green** you would see actions that give points for the "green group".

In **red** you would see actions that give points for the "red group".

In **blue** you would see actions that give points for the "blue group".
