READ BEFORE STARTING

Hi! I'm Shera and Welcome to the original 2D Tutorial that lets you rebuild this project layer by layer!

- Each build includes a material list with custom icons representing every individual block.
 - Please note: Some blocks have different states and may require more than one icon to show their correct placement. Before you begin, please read the Instructions page to learn how to use the 2D tutorial.
 - Some blocks like chains and candles cannot be placed in the air, use temporary blocks to place them.
 - Glowberries and vines also need to be planted in the layers above to grow.
 - If you have any questions, feel free to contact me through my Patreon page!
 - I've also included pictures of the completed build at the end of this PDF.
- Use them as a reference for any particularly tricky sections.

With Love
-Shera

HOW TO READ 2D GUIDE - INSTRUCTIONS

This block represents a stair! (half bright, half dark)

The arrows mean it's upside down!

The "lower" text means it's a lower slab, like shown here!

The "upper" text means it's an upper slab, like shown here!

When you see a handle it means it's a standing trapdoor!

When you see a door knob it means it's a door!
Careful to not mix it with trapdoors!

This represents an outside corner block.
It can also show up with the upside down symbol!

This represents an inside corner block.
It can also show up with the upside down symbol!

Trapdoors can also have the "lower" text, so be careful to not mix them up with slabs since they might look similar!

The "upper" text means it's an upper slab, like shown here!

C = Ceiling
