ORDER	MEMBER						TF IDEA	
	CARBYNE	GRAPHENE	DIAMOND	GOLD	SILVER	BRONZE		
1	Antiolemy						Gwen turning into wererat from the video game Amazing Spiderman	Ago 19-25
2	sd102						Irene Lew turning into Galla https://static.wikia.nocookie.net/ninjagaiden/images/f/ff/Ninja_Gaiden_II_Sonia_Render_PNG.png https://vignette2.wikia.nocookie.net/ninjagaiden/images/d/d3/Enemy_Galla_130.jpg I'd expect her transformation to be midway through, with her face having taken on most of her Galla features and already having horns. Her body would also be mostly Galla and her legs would be completely Galla. And this time I want her body to be completely naked, with only partial clothing to reveal enlarged leathery breasts and a leathery pussy. And finally, the tail has arrived.	Ago 19-25
3	Zillo						Tea gardner in her battle city attire. Hourglass expansion.	Ago 26-01
4	Bryan Long						Alexis Knapp as Samantha from Vamp U in all her vampy glory	Ago 26-01
5	JayKayNinja369						Poison ivy turning into a real plant lady (her body will be made of green vines).	Set 02-08
6		Jeremy					Rika from Digimon Tamers (Season 3) in the middle of transforming into muscular, curvy, multi-breast, and 4 armed Pangolin girl with Lanamon looking on enjoying the sights too much to notice her own body starting to becoming thick and piggish?	Set 02-08
7		Frankrock927					Based on the Shrek 2 ending, human Shrek and Princess Fiona turn back into their ogre form. For Shrek is half-completed in his TF: his head becomes bald and sticks out his ore ears, his head starts to show his ogre fats, his right arm is fully an ogre while his left starts to TF, he shows a fat torso and his lower body starts to TF while his shoes torn out showing his ogre feet. Also, showing his ogre size boner when he looks at Fiona. For Fiona, instead of muscular, I prefer plus-size as the original design does (wearing a white gown from her wedding ball): her ogress ear sticks out horizontally straight as in the film design, her dress is torn out showing her whole torso that shows her ogress size breasts and nipples, and weight gains her ogress fat belly, her ogress-size vagina, her shoulder and thigh started her TF sign. And her nose started to change.	Set 09-15

8		Spider-Man of Earth-1218				A The Last of us AP/TG of Sam being turned into Ellie's twin sister by Ellie in order to save his life. These are the hbo versions of the characters so Ellie has Bella Ramsey's likeness. https://www.deviantart.com/stash/01t9hf9eynz6 And Sam Has his likeness from the show. Sam is laying on the hotel bed with Ellie on top of him. Ellie has tendrils coming out of her mouth and going into Sam's mouth to assimilate him. https://www.deviantart.com/stash/0p7k06nb4nj Ellie has tendrils coming out of her nipples that are in Sam's nipples pumping in them, causing his breast to grow. One breast is only a bud, the other one is fully grown into Ellie's size (A-Cup). Ellie's pants are pulled down as tendrils are coming out of her vagina, they are wrapped out Sam's penis and also inside of it. It's shrinking and turning into a vagina as Sam starts to cum. Sam has splotches of white skin against his brown skin, his legs are longer with his pants ripping, Ellie is holding his hands during the change Half of his face is still his, the other half is Bella Ramsey's with his hair starting to grow longer, morphing between his hair and Ellie's hair. He has red paint around his eyes like in the show to mimic a superhero mask.	Set 09-15
9		Wingslash795				Parody of Brother Bear and Brother Bear 2. In the cave with a campfire, the human form of Kenai and Nita turns into a couple of bears while they're having sex, prefer mating. Their minds are bear-related, so they think like bears and act like bears when they're mating. Their TF are half-completed, their bodies become larger with round bellies/fats, their leg gets stocky, a snout shows up, having bear ears, and start to become furry, and their hands and feet become paw-sized with claws, and short tails. Also, they keep opening their mouth to roar.	Set 16-22
10		Re-Maker				The first picture will be them being in some alien facility being converted. They're either immobilized or floating in tubes, with various alien devices working on them. Ann (Persona 5) is more far ahead: she has been stripped of most of her clothes, her body is looking a lot different: bigger boobs, a bit more muscles, her skin is becoming a red-ish purple with black stripes on her shoulders and thighs and she has a visor or an helmet covering half her face and is visibly moaning. Makoto still looks mostly human and is trying to free herself as a visor is about to lock her head, too... but there's patches of blue-ish grey on her skin and her body proportions are starting to change too. Also unlike Ann she still has most of her clothes.	Set 16-22
11		DenissZyth				Black Widow into a spider-like gamma creature. https://files.catbox.moe/y8gyf6.jpg	Set 23-29
12		dominik cata				2) My idea for this year is Shauna from Pokémon transform into goodra by her male goodra who breeds her ,in first panel she gets breed by him and gets covered with his slime sweating from his body and she is in the middle of the transformation, her arms and legs transform into that of goodra ,tail start forming on her ass, on her hair two long pair of goodra antennas grow that thing goodra have on back of her head , under her eyes green spots and her breasts start growing and a very little muzzle form, and her waist bulked a little bit, and on her transformed arms, a bit of dropping slime .	Set 23-29
13		Tiberius				LaForge sisters turning into Alien Borg from Old Star Trek	Set 30-06
14		J				Highschool dxd Akeno Himejima as a succubus	Set 30-06

15		Jeremy				Makoto and Anne from Person 5 in the middle of transforming into pregnant Egyptian Goddess Taweret and Bastet respectively. Both ladies have expanded enough that their Phantom Thief clothing is torn and damaged, but are not completely naked. Makoto face just starting to lengthen and change into hippopotamus snout and flushed face / clouded eyes as loses focus and consumed by the transformation. Anne with a shocked expression as she is looking at Makoto and does is unaware as her hands are exploring her body, as a catgirl Anne would have 6 breasts.	Oct 07-13
16		Frankrock927				Based on the Animorphs: The Reaction (both Book and TV series). Rachel and Cassie turn into a pair of crocodiles. For Rachel: Her clothes ripped off during her TF; her belly fully TFed showing her crocodile breast and tail, her face started to show fangs and nostrils while her mouth stretched out, and her hand and feet showed a claw while her legs began shorter. For Cassie: Her hands turned into legs, her face was half finished showing her mouth, fang, and nostril, and she had a small tail.	Oct 07-13
17		Wingslash795				After being injected with mutagen, Nora Freeze (Harley Quinn 2019 series) turns into a polar bear. She wears her recent blue outfit from the show. Her body is covered with furs, showing off her breasts and round belly, her hand feet turn into paws while her arms and thigh become as thick as a bear, and she has a snout and her neck become thick. Also, she has a fang and polar bear ears.	Oct 14-20
18		DenissZyth				Random female S.H.I.E.L.D soldier and transform her into a voluptuous brown harpy-like gamma monster (the same concept as the crow-like gamma monster)	Oct 14-20
19		Spider-Man of Earth-1218				continuation of the first page. Sam has now fully transformed into Ellie's twin. She's laying on the bed worn our from her transformation. Sam's Clothes are ripped up as she is older and bigger now, her skin is fully white, she still has her red painted superhero mask around her eyes. Ellie is laying next to her, comforting her by hugging her around the waist and kissing her cheek. Sam has her hair down and its spread across the pillow. https://www.deviantart.com/stash/0duhc2rrbmw	Oct 21-27

20		Re-Maker				Ann and Makoto fully converted into sexy aliens. They share some similarities: both have hands with only 3 fingers now (one thumb + 2 others) and feet with 2. They have small antennas poking out of their hairs, and large, completely glossy black eyes. They're not wearing much, just collars and some kind of "slavegirl bikini" that leaves very little to the imagination. In terms of differences, Ann is the taller and bulkier of the two: she is quite muscular, and her breasts are really big. Her skin is somewhat scaly and a red-ish purple, darker on her shoulders and limbs, and with black stripes. She still has her hairs, but now they're white with a few streaks of pink in them. Makoto is a lot more thin and nimble, her breasts didn't grow in size, but her hips, thighs and butt sure did! Her skin is a desaturated/grey-ish blue, with darker round spots, and unlike Ann's is very smooth. She still has her hairs, but they're a near-black blue. And they seem to enjoy their new looks quite a bit. Basically the idea is that they're two different "breeds" of the same species. Ann is more of a worker or soldier, Makoto more like a dancer or a breeder.	Oct 21-27
21		dominik cata				3) He still breeds her. she is fully transformed into goodra her eyes change into those of goodra her hair is gone, and her breasts grow. i just want her to look completely feral goodra just with big breasts, male can be slightly bigger than her.	Oct 28-03

23		VampYou				Aerith vampire from final fantasy	Nov 04-10
24		VampYou				Gwen human from spiderman	Nov 04-10
25		VampYou				Gwen vampire from spiderman	Nov 11-17
26		dominik cata				1) male goodra hug shauna from behind and smile then start covered her with his slime shauna is kinda shocked by that and did not notes her arms and feet start transform can that be like first pin-up and a little antennas start growing on her forehead i mean this part. https://scontent-waw2-2.xx.fbcdn.net/v/t1.15752-9/454434406_1699118414193739_3418740308580079742_n.png?_nc_cat=111&ccb=1-7&_nc_sid=9f807c&_nc_ohc=HnPcwvitRfwQ7kNvgHxDF-W&_nc_ht=scontent-waw2-2.xx&oh=03_Q7cD1QHJWxUYWXBhIE8lCn9CgLBQ2R6GOjaYmXevjyoqeyWlYw&oe=66E0A6E1	Nov 11-17
27		Mysterious Stranger				Moriko Ito, also known as the Crimson Web due to her habit of dyeing her webs red - She's basically a Red Widow drider (though technically identifies as jorogumo) with the same kind of markings and exoskeleton as the spider parts of her covering her body. Her hair color is black, eyes yellow, no mandibles (her face looks like it could be human, if humans were bright red). And if there's a clothed / unclothed option, female samurai armor or a kimono would be nice. For the background: in spite of everything I've said, she's actually a resident of a Japanese farming community in Florida. Swamp background would be OK, especially with Japanese farm imagery that looks like it shouldn't necessarily be in a swamp.	Nov 18-24
