

Bloom's Q&A corner

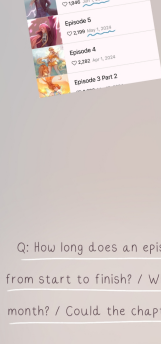

Q: What tablet/program do you use?

B: Ipad. Pro with Clip Studio Paint EX

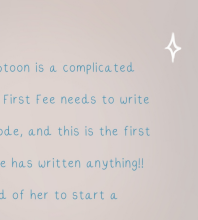

Q: Do you have an upload schedule?

B: Yes! Fee uploads every first of the month. Unless it's a two part episode, in that case she posts twice a month.

Q: How long does an episode take you to draw from start to finish? / Why do you upload once a month? / Could the chapters be uploaded earlier?

B: An entire episode from start to finish takes Fee at least a month and sometimes even more! People asking if she can upload more is really stressful for her, so please be kind earth fairies and be patient with our creator!

A Webtoon is a complicated process! First Fee needs to write the episode, and this is the first time she has written anything!!

Bold of her to start a webtoon. . .

Next she has to figure out the layout of the episode and how many panels are needed for a nice flow. These little quick sketches are then refined into a more comprehensive sketch

then lineart

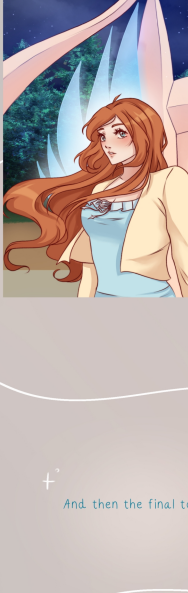

then color

then shading

can't forget about the background!

+

And then the final touches!

+

Oh, and don't forget the sfx! Which

are all written by hand.

GASP

THUMP

BADUMP

This is repeated for 60-100 panels EACH episode!

Please have mercy on Fee's poor hand

Q: Do you need to watch Winx Club to enjoy Embers to Inferno?

B: Yes and no, Fee does not include every single adventure we had in the show in this webtoon so watching Winx really helps with giving a bit of context for each episode and for understanding little inside jokes!

There have been some comments saying that the story jumps a lot and that they can't follow, that's because you're missing context from the original show. Fee didn't want to redraw every single episode when it wasn't necessary, so she always adds recommended episodes to watch before the next upload.

But others have said they're able to follow just fine, so it depends on the person!

Example

Q: How old are the characters?

B: I am 19! When Stella found me in Gardenia during the summer vacation I was 16 and my birthday is in December so I turned 17 that same year making me 18-19 right now!

Valtor is a bit difficult to say, he was created by witches over a thousand years ago so he doesn't age like we fairies do, he hasn't aged ever in fact. He was built like how he is now and has looked the same ever since.

19

1000?

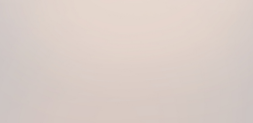

Q: Can you see yourself creating other Winx related webtoons?

B: This one just started so Fee has no idea yet! She's only interested in me and Valtor for a full story though haha. Maybe some mini comics when Embers to Inferno is over?

Q: Will NSFW scenes also appear in the webtoon or only on Patreon?

B: Only heavily censored and with many parts cut out! I don't need everyone to see my love life!

Please be a little mindful that Fee is currently spending all her time on this webtoon and that any sort of income is very welcome to help support this big project. Some fairies have been asking to have everything for free but the webtoon is already for free and you don't need the extra content to understand the story. If you can't afford her Patreon that is okay, but please understand that not everything can be given away!

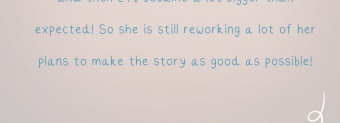

Q: How long in advance do you finish drawing the episode before posting?

B: Around 5 to 6 months in advance. If an episode is taking longer than expected there is always another one ready to go! This saves Fee a lot of stress, as even the one month deadline is really tight! She also likes to go back and redraw some panels before posting.

Q: Is the plot of Embers to Inferno completely planned out?

B: Yes and no! The main storyline, certain scenes and all major events are planned, but everything

in between is not.

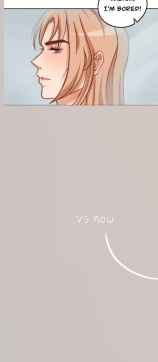

Q: What is your inspiration for this webtoon?

B: Fee has been a fanfiction reader since she was only 15 (now 25)! She gets a lot of inspiration from her favourite fics and enemies to lovers stories. (Mainly Dramione & Zutara)

Q: Did you plan this webtoon ahead or was it spontaneous?

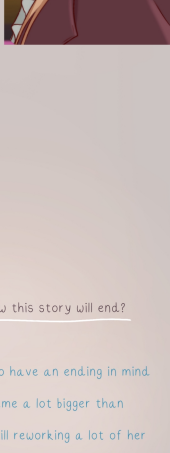

B: A bit of both, Fee has been working on ETI for a year before the first episode was posted! She wanted to see if she liked the process and how far her artistic skills would grow in that year. But right now a lot is very spontaneous, she is working on episodes in advance but there are none fully written out until it is time to start on that episode.

How valtor looked a year and a half ago

(These were never used for the final episode 2)

Vs now

Q: Do you know how this story will end?

B: Sort of? Fee used to have an ending in mind and then ETI became a lot bigger than expected! So she is still reworking a lot of her plans to make the story as good as possible!

Q: How many episodes will this webtoon have?

B: As many as it needs to have!

(F: No idea)

+

Q: What made you want to write this fanfic/story?

B: She just loves me and Valtor so much heheh. There is so little art and stories about us, and she wanted to contribute her own story to the community! Of course she did not expect the community to be so big haha.

~

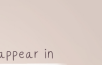

Q: How far will the story go? Is it only season 3 or also the movie?

B: My quest to save my parents will be included one way or another for sure! After that it'll probably end, just like Winx Club itself was meant to.

~

Q: Will Bloom's wings be sensitive to the touch?

B: H-how do you know they're sensitive?!

Q: Will dark Bloom appear in Enchantix?

B: Aah good question, Fee isn't too sure because she loves my Magix Winx Dark Bloom look a lot! The heels do make my legs look great!

Q: What's your favourite ETI moment?

B: My favourite moment is dancing with Valtor in Eraklyon even though I don't know it's him yet in ETI! It's such a magical memory!

Valtor: My favourite moment is when my fairy punched me in the jaw in episode 5. I love her temper.

B: Fee's favourite moment is still to come and we will not spoil it for you, but it happens in episode 14!

Q: Will we see new outfits?

B: Oh yes!! Fee has always been a fashion designer every since she was little, so be prepared for many new outfits for everyone! (Yes, even Valtor will be forced to wear something else than that ancient leather coat of his)

Q: Will Daphne make a
appearance?

B: My sister will definitely make
an appearance! Fee is just
figuring out when the right
moment would be.

Q: When will it deviate from the original plot of the show
(plot being the original ending of season 3) or will it at all?

V: Of course it will! I will not die again and I certainly do
not beg for my life. The Great Dragon only knows what
possessed the writers when they made me grovel like that.

B: Everything will diverge from canon after the Museum
episode! Which will be episode 14! With little things still being
the same as in the show of course! (Yes Nabu will be there

haha)

Q: Do you plan to change the storylines for
other characters? Like Musa and Riven? Or do
you plan to have another ship, like Flora x
Anagon?

B: Fee is far too busy figuring out Valtor and
mine's story, there wouldn't be any time to
focus on anyone else.

And Flora is in a very happy relationship with
Helia!

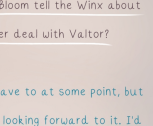

Q: Do we get to see the Trix set Valtor free in Omega?
(Like how the Trix told about Darkar and Dark Bloom)

B: Probably not, not much happened in that episode
that would warrant an entire conversation at this
point. If it's not in the Webtoon you can assume
everything happened exactly as in the show!

Q: Have you considered making evil Bloom work with
Bloom instead of against her?

B: No, Dark Bloom is an evil parasite slowly draining
the dragon flame from me bit by bit. She does not
deserve a redemption, as she is not a real human
being. She is just the remnants of a virus, a virus
that made me lose control over my own body and
free will.. I will never work with her!

Q: Will Bloom tell the Winx about
her deal with Valtor?

B: ...I'll have to at some point, but
I'm not looking forward to it. I'd
rather keep it a secret for as
long as I can!

Q: Why do you ship Bloom x Valtor?/
Have you always shipped Bloom and Valtor or did
you ship her with Sky at one point too?/
Did you ship Valtor and Bloom before writing ETI?

B: As a little child Fee did ship Sky and me, but
that quickly changed! She shipped Valtor and me
from the moment she saw him to be honest haha, he
was just too handsome to ignore!
She always liked the hero falling in love with the
villain, so it was just a matter of time!

Q: Do you think Valtor and Bloom have the capacity to be in a healthy relationship?

B: We might not have the most conventional relationship, but it works for us! Fee is at least trying her best to make it as healthy as possible for the both of us.

Q: Is Valtor starting to have feelings for Bloom?

V: No, at this point in the story all I felt was attraction but that was not enough to change my plans. She was a threat and needed to be dealt with. It took a while before I realized just how much I loved her, but I was always intrigued by her. From the moment our eyes met in Solaria I fear I was a lost cause, even if I didn't realize it myself.

Q: Will Valtor and Bloom have children?

V: The witches did not deem it necessary for me to procreate, so they made me infertile. A monster created for war does not have the time nor the need for children. Luckily, I myself don't have any desire for a little spawn of me either, I would not make the best father as my role models were quite.. lacking in the parental department.

Q: Will Valtor and Bloom get married?

B: No idea yet!

Q: What do each of the other Winx think of Valtor in general or as Bloom's future boyfriend? / Who would be the most supportive towards Bloom for her feelings for Valtor?

B: They understandably still hate him. I feel like Stella would be most understanding, but I'm terrified to tell anyone about our arrangement for now.

Q: When are Valtor and Bloom going to realize their feelings?

B: When the time is right! Love does not bloom overnight, but takes time to develop. Fee does have the scene planned where Valtor realizes his feelings for me, but she has no idea yet when that episode will be.

Q: Favourite design?

Q: What do I think about the newest season (after butterflyx)

B: Fee hates everything that came after season 4, except the Sirenix song. (F: That song slaps!) But all seasons including the new reboot are not her cup of tea, and she will probably not watch it.

Q: Would Valtor reveal that Sky hurt Bloom?

B: No need! That's not Valtor's place to tell, but mine. I'll tell them when I'm ready.

Q: Will the other specialists make an appearance too?

B: Yes! My good friends Brandon, Riven, Helia, and Timmy will make their first appearance in episode 12!

Q: Any plans for Sky vs Valtor?

V: Wouldn't be much of a fight now would it? I have some pride in the adversaries I choose, a mere insect is of no concern to me. However, if he ever lays his hands on Bloom again, I will make sure he'll be wishing for death to take him.

Q: Favourite character to draw.

Q: Will Roxy make an appearance?

B: Roxy won't be there! Don't tell her, but she's not Fee's favourite character so writing her in would be difficult and not really worth it. This webtoon will take enough time as it is haha! (F: sorry Roxy fans!)

Thank you so much for reading!

If I missed something please let me know in the comments and I'll do my best to answer!
