

INT. DAY

Will sat at table.

Plinky plonky music in background.

Throughout conversation keep jumping from one side to the other in the frame.

WILL

Hi there guys! So this week I thought I'd make a video of me trying some Alien fruit! Right So I can't really read Galactic script 24 so I just ordered by the pictures. So who knows!?

X Pulls out organic sack and lumps it on the table.

WILL (CONT'D)

X So this is the... shopping bag they come in... Ordered them online. I'll just reach on in there... Oh it's all wet.

remove

X Pushes his hand through the weird sphincter and pulls out a receipt covered in goo.

WILL (CONT'D)

X This must be the receipt..

He pulls out the banana.

WILL (CONT'D)

~~This must be how they keep it fresh? Oh this is something!~~ Right so this looks like a blue banana, with little spikes

Banana has spikes and blue colouring.

Shakes the slime off.

WILL (CONT'D)

So if I peel this...

Begins to peel banana.

Reveals eyes inside.

WILL (CONT'D)

Woah! Ha! Ok... It has eyes..

Puts down on table. The eyes blink and look around.

Remove

No.
Slime

WILL (CONT'D)

So I suppose I just eat it like normal? I'm just gonna go ahead and take a bite.

Nibbles the top.

WILL (CONT'D)

Hmmm... it's ok tastes kind of similar to a normal ban-

The banana bursts open revealing teeth and flapping tendrils.

Will screams.

Whacks it on the table.

Lying on the table

CUT TO:

WILL (CONT'D)

Right so next lets try this one.

He is blue around the mouth.

He pulls out a melon with a hive on the top.

He is slightly bluer and has white barbs resembling the banana's appearing in his lips.

WILL (CONT'D)

So this is a hive melon. As you can it looks a bit like a wasps nest or something? So i'll just cut into it. Yup... that's a hive. *wretch*

Slices it open to reveal a hive.

WILL (CONT'D)

So this is like a little honeycomb inside... Now am i supposed to actually eat these little grubs? I'm just gonna try one

Holds in front of face

Eats a grub he finds in the honey comb.

WILL (CONT'D)

Oh my god that's hurrendous

Goes to vomit

CUT TO:

WILL (CONT'D)

Right! Oh I'm a little itchy...

A hive has appears on his neck.

"(now have a hive on my neck)"

WILL (CONT'D) /

So that's interesting... So This is a assimilation apple. Not sure why they are... Looks pretty normal to me.

He is holding a normal looking apple.

WILL (CONT'D)

So I'll just take a little bite then...

Takes a bite.

Looks like he's enjoying it.

He suddenly pauses and looks terrified.

He tries to pull the apple away from his mouth but the skin of the apple has merged with the skin of his face. He then tries to pull it from his hand with the other. [It is also merged with his hand.] - ~~no remove~~

[He tries to pull his fingers from the apple. They have also merged.]

remove - too difficult

CUT TO:

Will has half an apple sticking out of his head. [His mouth is bluer. There are more thorns and a hive on his forehead and cheek. He is drooling slightly.] - only apple remains

WILL (CONT'D)

(monotone)

Apples. Apples are great.

- It has taken over everything

- no hive or blue

WILL (CONT'D)

Right so finally we have this one. It's called a galaxy fruit. It's not an apple. Great. So I suppose we should cut it open and have a look inside.

Slices open fruit.

Reveals galaxy inside.

WILL (CONT'D)

It has a miniture galaxy inside... big deal... it's no apple... So are these edible then?

Picks off a planet and brings it up to his mouth.

Bites a chunks out of it to reveal liquid magma inside.

Then pops the whole thing in.

WILL (CONT'D)

MMMMMM! *That is good for a not apple*

Holds the fruit above his head and shakes contents into open mouth.

Shots from the side and above looking down as planets fall into open mouth. Quiet screaming can be heard.

All the planets and then the sun fall into mouth. *Hum that sun is spicy!*

Pulls out final piece of paper- has alien writing on it.

WILL (CONT'D)

What's this say?

change Get's translate up on phone.

WILL (CONT'D)

WARNING: Don't eat the sun....

Oh... Apples...
