A/N: A fun little threesome with no consequences whatsoever...

-x-X-x-

Really, he could have tried to make this all about himself since it was Lorraine who had invited him here and everything... but Myk-Zod isn't about to get in the way of two women putting on a show. Especially two very attractive women who seem to be quite... into each other, for all that Lorraine had her insecurities.

Regardless, he keeps quiet and enjoys the view, watching on as Raven takes Lorraine well in hand and begins introducing the more inexperienced of the two women to just how much fun they can have together. The dark-haired human woman is quite... aggressive in doing so, their lips pressing against one another along with their chests.

Nipples rub back and forth as pairs of breasts are smashed flat against each other, and Lorraine's whimpering moans make it clear that she's not entirely sure what she's doing here or how to react to it all. But she makes no move to try and pull away from what Myk-Zod can see, instead just further and further relaxing into Raven's touch.

That is, until Raven gets particularly adventurous and reaches down the front of Lorraine's skirt right then and there. As her fingers no doubt touch that oh so sensitive and intimate place between Lorraine's thighs, the blonde finally seems to be jolted out of it, coming back to her senses and pulling away from Raven's lips with a yelp.

"H-Hey! What are you doing?!"

Raven arches a brow at the paradoxical prudishness that the other topless blonde is currently showing.

"Making you feel good. What else?"

Blushing crimson and sputtering, Lorraine looks like she doesn't know what to say for a moment. But, glancing around as if looking for a lifeline, her eyes alight upon Myk-Zod again... and his still naked, still throbbing shaft.

"This isn't about making ME feel good, Raven. Honestly, we're supposed to be tending to Mike right now. Instead you've got me distracted ignoring him."

Flashing Myk-Zod an apologetic smile, Lorraine turns back to him, still on her knees as she reaches out and grabs his cock by the base.

"Sorry about that, Mike. Let me take care of you."

She shoots Raven one last reproachful look, as if to say 'follow my lead and stop playing games!' and then she leans forward and slides those ruby red lips of hers right over the head of his throbbing shaft. Myk-Zod grunts as Lorraine begins to suckle at him, gazing up into his face with those big blue eyes of hers.

Raven, for her part, looks put out for just a moment before rolling her eyes with a huff. Then, she leans in too, her own hand coming up to wrap around his shaft right above Lorraine's.

"I suppose he is a bit of a specimen isn't he? Too much man for dear Private Lorraine to handle on her own."

Lorraine makes a 'hmpf!' noise in the back of her throat at that but doesn't stop sucking at his cockhead. At least, not until Raven leans even further in and all but crowds her out. As soon as the blonde pulls away from the black haired woman's cheek pressing into her own, Raven dives in and dives down, taking far more of his cock into her warm wet mouth than her roommate had done.

Myk-Zod fully groans as Raven sucks several inches of his dick down, causing Lorraine to gasp a little at the enthusiasm on display.

"Oh... that's more like it~"

Grinning up at him with the red on her lips ever so slightly smudged, Lorraine giggles.

“Looks like we’re all starting to get a little riled up, aren’t we? Don’t worry Mike, you just sit back and enjoy~”

Humming, Myk-Zod tilts his head to the side at that.

“And what if I don’t want to be a mere bystander to this process?”

Before Lorraine can do more than furrow her brow at his question, he puts his words into action... namely by reaching out and cupping one of her naked breasts right then and there. The blonde gasps and arches her spine immediately, pressing her chest up into his questing hand.

Wasting no time, Myk-Zod begins to fondle and squeeze Lorraine’s tits right there on the spot... while also reaching down past Raven’s bobbing mouth to grope at her tits too. Both of them have quite satisfying chests to be sure, and Myk-Zod does everything he can to show them pleasure while they in turn pleasure him with their mouths and hands interchangeably.

His senses, enhanced by his time under Earth’s Yellow Sun, allow him to note the microscopic details in how both Lorraine and Raven react to his touches. Lorraine can be likened to an unsecured data-slate with how he’s able to read every reaction she gives him, able to tell every time whether what he’s doing is pleasurable to her or not.

Raven... Raven is a little bit harder for him to read, however. There’s something about her that rings different to him, something ever so slightly off. If nothing else, she’s certainly better at controlling her body’s reactions than Lorraine is, holding back a lot more than the enthusiastic, sexual blonde.

But ultimately, he’s able to give as good as he gets, until finally Raven pulls back off of his cock with a pop and lets out a sigh.

“I’m going to wind up with a sore jaw AND sore throat at this point if you keep distracting me from bringing you to finish. Let’s just get to the main event now, shall we?”

Smirking, Myk-Zod pulls his own hands back and inclines his head.

“If that’s your wish, then I’m happy to do so.”

Lorraine, practically vibrating in excitement, hops to her feet right then and there and begins shucking off the rest of her clothing. Raven does the same, albeit at a slightly more languid pace, and Myk-Zod ultimately follows their lead, standing up and stripping fully naked as well.

Of course, once he’s completely exposed himself to their gazes, both human women have to stop and just stare for a moment in visible appreciation. Lorraine is the most honest about it while Raven tries to hide how much she finds his form visually appealing... but Myk-Zod sees through her façade.

And yet, even her appreciative looks at his body don’t stop the raven-haired private from doing what she wants. In this case, while Lorraine is distracted ogling him, Raven suddenly turns to the other naked woman and proceeds to grab her by the shoulders and push her back onto one of the beds.

“H-Hey! Raven, what are you doing?!”

Pinning Lorraine down, Raven gets on her hands and knees looming over the blonde while glancing back at him.

“Just giving Mikkel a chance to have us both at the same time. Otherwise, one of us would have to wait our turn... doesn’t seem very fun when we’re both so excited to have him inside of us, now does it?”

For a moment, Lorraine squirms in silence, blushing at her close proximity to the other woman that has her pinned to the bed. But finally, after no censure comes from Myk-Zod’s direction, she nods jerkily.

“Y-Yeah... that m-makes sense.”

Smirking back at him, Raven arches a brow as though to say ‘Well? Get on with it!’. Chuckling to himself, Myk-Zod shrugs and does as he’s ‘told’, moving into position behind Raven and betwixt Lorraine’s long, shapely legs as they spread open eagerly in the presence of his throbbing, glistening mast.

Admittedly, this position that the two women have taken up works for Myk-Zod too... after all, he’d been wanting to test his capacity and this pose was better for that than if they were just both laying on their backs or resting on their hands and knees side by side.

Grabbing Raven’s ass with both hands, he squeezes down just hard enough to make her moan, while at the same time angling his cock so that it slides up between Lorraine’s thighs and presses into her slit. The blonde lets out a squeak of anticipation followed by a squeal of pleasure as the Kryptonian thrusts into her down below, sliding up deep inside of her while continuing to grope and squeeze Raven’s ass.

Both women are reduced to moaning messes as Myk-Zod starts off slow but steadily picks up his pace, fucking Lorraine while groping Raven all the while. They’re clearly having a good time... but that’s not quite good enough for him. He doesn’t just want them to have a good time; he wants them to have the *best* time.

More than that, the Kryptonian sees an opportunity to do some science... an opportunity he’s loath to pass up. What are his limits? What are their limits? How compatible are human and Kryptonian bodies really, especially at his current power level? Compared to how strong he might be able to become; it would be good to get multiple benchmarks along the way as this world’s Yellow Sun empowered him more and more.

That’s why... Myk-Zod doesn’t really hold back. Oh, he still refrains from hurting either of them of course. He’s quite careful not to give the two women more than they can handle. At the same time though... he gives them all the way up to the

brink of what they can handle, bringing them both to the heights of ecstasy again and again.

PLAP! PLAP! PLAP!

CLAP! CLAP! CLAP!

He does this by alternating between their cunts each time one of them orgasms for him. Lorraine is first of course, but as soon as she cries out and cums all over his cock, Myk-Zod pulls out and proceeds to plunge into Raven's depths instead, fucking her next. It's a bit more difficult to draw a climax from the black-haired private, so he winds up fucking her longer until she can't take it anymore and spasms her way through the resulting orgasm.

Back and forth he goes, switching between both women and testing the limits of their cognitive abilities when bombarded with copious, untold amounts of pleasure. It's also a stellar lesson in restraint for himself because even as strong as he already is, he could crush their bones and rend their flesh in a single moment of lapsed concentration if he's not careful.

Fortunate then that the empowerment of Earth's Yellow Sun is mental as well as physical. He was already quite intelligent, not to be too arrogant about it, but the Yellow Sun has made his brilliant mind sharper and more coherent, giving him the ability to focus on many more things than he could have recently.

From Lorraine and Raven's elevated heartbeats to the perspiration on their skin, to the softness of their feminine forms and the strain he's putting on their skeletons and organs... Myk-Zod is able to feel it all and keep from doing any lasting damage to either woman.

They'll certainly wake up sore in the morning though; there's no doubt about that. As well as coming away from tonight believing it to be their best experience of their lives... or so he hopes.

Of course, in his intentions of giving them both the best sex they've ever had, Myk-Zod does wind up going a little bit overboard. However, this isn't entirely his

fault... rather, it's because he doesn't realize until a bit too late that the two women are more different than he thought.

It's not something he could have really understood until he was fucking them both one after the other with considerable strength and speed, but while he HAD noticed Raven was a bit better at controlling her body's reactions earlier than Lorraine was, he hadn't comprehended exactly what that might mean.

Put simply... Raven was tougher than Lorraine. And not just in a 'human beings differ' sort of way either. The two women were relatively similar in physiology, at least on the surface. However, beneath the surface is where things got strange. Raven's bones could withstand more force by at least a factor of two, and her body held more strength to it than Lorraine's did by at least a factor of three.

Meaning she was twice as tough and three times as strong as the other human woman... which really shouldn't have been possible.

By the time Myk-Zod realizes this, he's fucked Lorraine into a stupor and the poor blonde has quite literally fallen unconscious from the sheer amount of pleasure and sensation that's been visited upon her. She's suffered no great injury, permanent or otherwise, but she really can't help but pass out because at the end of the day, she can't keep up with him and Raven.

Once Raven herself notices this, her demeanor seems to change a bit. She looks back at him with an odd look in her eye for a moment and then pulls herself forward off of his cock. Then, she flops over onto her back next to her passed out roommate, her breasts jiggling as she reaches down and pats her pussy wordlessly, clearly intending him to go right back to fucking her.

Curiosity definitely piqued by this point, Myk-Zod nevertheless moves in and slides his length right up inside of Raven, this time fucking her face to face after over an hour of only having her ass and back profile in front of him.

Breath hitching as he sheathes himself inside of her, Raven's eyes flash... literally in fact, her dark eyes suddenly turning yellow as she stares at him intensely.

“I had my suspicions before... but after that performance, I know it for a fact now.”

Myk-Zod watches on, a little awed but mostly just intrigued, as Raven transforms. Gone is the dark-haired, dark-eyed young woman she was portraying before. In her place is a blue-skinned, yellow-eyed creature, still feminine and humanoid, but very clearly not... human.

“You’re not human either, are you?”

No, he was not. Another alien? Probably a native from this universe, to be fair, but it was still fascinating that he’d ran into one so quickly, all things considered. He-

“You’re a mutant... just like me.”

Oh. Wait. Mutant? Uh... well this was awkward.
