Summary: Part 15 of [Delicious Seed](#). Jinx really doesn't believe Blackfire's stories about how good Adam is in bed. So Blackfire arranges for Adam to get a fresh taste of the Dark Side as he completely and utterly rocks Jinx's world in the process.

At this point, Adam had grown used to Blackfire's... idiosyncrasies. She was something like a house cat in that she sometimes acted more like he belonged to her than the other way around. Case in point, dragging him out on a 'date', only for them to be 'ambushed' by an unexpected third party.

Well, unexpected for Adam. Obviously, Blackfire had known she was coming.

"I dunno... I just don't see it."

Cradling her face in her hand, the notorious small time villainess known as 'Jinx' looks at Adam like one might look at a bug. With pale grey-white skin, pink eyes, and pink spikes for hair, she wears a short black dress with a jagged trim and black-and-violet striped leggings underneath.

The black choker around her neck completes the whole ensemble, but her attitude definitely leaves a lot to be desired. Even Blackfire thinks so, because the exiled alien princess huffs and shakes her head.

"That's because you're blind. I'm telling you, Adam is a real man... nothing like all of your pathetic exes."

"Hey!"

“What? You’re the one who bemoaned to me that you couldn’t find a man who could not only properly satisfy you, but that was also worth being around. Well, here he is.”

Jinx gives Blackfire side eye at that.

“Aren’t you not even his main squeeze? You’re literally his side piece while your-!”

“Do *not* finish that sentence if you value your life.”

Blackfire’s eyes blaze with violet power, causing Jinx to pull back in alarm and raise her hands in surrender.

“Okay, okay. Sheesh, no need to get your panties in a wad.”

Finally, she looks back to Adam and grins.

“Guess we’ll just have to see what you’ve got that let you tame a wild bitch like Blackfire here, huh?”

Funnily enough, Blackfire doesn’t take all that much offense to being called a ‘wild bitch’. She just huffs and abruptly rises from the table. They’re in the private room of a restaurant, just the three of them, and it’s obvious Blackfire intends for Adam to fuck her and Jinx right here and now.

... He’s not opposed to it, though he has to admit that Jinx is definitely rubbing him the wrong way so far.

As she rises as well, making a show of stretching languidly like a cat, Adam sweeps his gaze up and down her slender body, taking her in properly. Which in turn prompts one of her eyes to open and look at him as she smirks.

“Like what you see?”

Adam smirks and arches a brow at her.

“I’ve seen better.”

He means it too. Sure, Jinx isn’t ugly by any stretch of the imagination. She’s cute in her own unique way. But Adam has been with half a dozen superheroines at this point. Even as Jinx gawks at him, Blackfire laughs.

“Of course he has. He’s had me. Don’t act all high and mighty, Jinx. We’re doing you a *favor*.”

Scowling a bit now, Jinx rolls her eyes.

“A favor, huh? Well let’s find out.”

She snaps her fingers and a faint fizzie is all the warning Adam gets before his belt and his pants give up the ghost. The belt buckle snaps open in a supernatural manner and his zipper busts at the same time, dropping his pants down to his ankles and leaving him in just his boxers.

Stalking forward, Jinx smirks as she hooks her thumbs into the waistband of said boxers and yanks them down, dropping into a crouch at the same time.

“Let’s see what we’re... working... with...”

Her cocky, confident attitude falls to the wayside however when she fully exposes him and his cock promptly flops out onto her face. The crouching villainess suddenly has a whole lot of man meat to contend with, his length laid out over her upturned features, covering one of her eyes as the pupil of the other shrinks down to a pinprick in the face of his size.

“... holy shit.”

Blackfire stalks over with a laugh and grabs Jinx by one of her pink hair spikes.

“See? What did I tell you? Now, open wide and get to work.”

“You can’t be ser-mmph!”

Blackfire pulls Jinx back, repositions her, and a moment later shoves her down the length of Adam’s cock, making her take him past her lips right there on the spot. Jinx’s hands come up to clutch at his legs, but even as she looks up into his eyes, she doesn’t resist or try to push away from him.

Instead, gazing up at him, she begins to bob up and down with Blackfire only partially controlling the pace. The villainess gurgles and gags as she takes more and more of Adam’s dick into her mouth, until eventually he’s hitting the back of her throat and going down her esophagus.

“Glughk... Glughk... Glughk...”

Jinx chokes on his cock, but Blackfire just chuckles evilly.

“That’s it. Now you see what I’ve been dealing with. Aren’t you lucky that I’m willing to share him with you? Heh... this here is a real man, Jinx. You aren’t going to get anything better than this.”

The other woman can’t really argue with Blackfire, occupied as she is. Still, the more she sucks him off, the more engaged she seems to get. Jinx’s hands start to grip down on his legs and her tongue starts to writhe along the underside of his cock.

Adam groans, enjoying her efforts even as her throat convulses around the head of his member, all the way in her gullet. Until finally...

“Fuck, here it comes...”

He reaches the point of no return and tips over the edge with a groan. Blackfire, hearing his warning, shoves Jinx further down his cock, until her throat is bulging with his length. That choker she’s wearing stretches for a moment... before snapping as he begins to cum down her throat in a torrent, forcing her to swallow as much as she can to afford drowning in his seed.

Some of it still comes exploding back out though, coming out her nostrils and the sides of her mouth as her eyes half roll back in her skull and she gurgles helplessly. The remains of her choker fall to the ground, even as she quivers and trembles in her crouched position in front of him.

Finally, Blackfire yanks her back off of his cock and proceeds to lick her face clean languidly, leaning over and giving Adam a nice view of her shapely ass and arched body in the process. When she's done, Jinx has recovered enough to stare at Adam's cock with nothing but sheer desperate avarice in her eyes.

"I need that thing inside of me *yesterday*. I need him to fuck me NOW."

Blackfire just smirks.

"Hmph. How quickly you change your tune."

Still, she drags Jinx to her feet... and begins stripping her naked right then and there. Jinx writhes but doesn't try to stop her, moaning as Blackfire kisses her on the mouth and pinches her dark nipples between her fingers. Until finally, the alien princess drags Jinx up onto the table, lifting her up so she's sitting on the edge.

... And then she promptly positions herself between them, flips up her skirt to reveal her lack of panties, and gives him a look over her shoulder.

"You'll fuck me first. Jinx will wait her turn."

Jinx squawks at this.

"Wha- the hell I will! I want that dick!"

"You can have this cock once I'm done with it. If Adam decides you've earned it."

Jinx whines, but Blackfire just glares her down, intimidating her into submission. Meanwhile, Adam is already moving into position, grabbing Blackfire by the hips

and lining up with her from behind. He fully agrees with her call here... Jinx was a naughty little bitch and she did not deserve to get first go. Not when Blackfire had been the one to set this up in the first place.

He drives into Blackfire from behind and makes her moan wantonly as he stretches her wide. The former villainess, now somewhat reformed (or at least as retired as Starfire was) just shudders as she takes every last inch of his cock into her quim. Her pussy walls clench down as best they can around his large dick and her body shudders in visible enjoyment.

Jinx looks jealous as he begins to fuck Blackfire at first... but then a change comes over her and she gets this glint in her eye. Suddenly, she grabs the exiled alien princess by her hair and pulls her back into a kiss while at the same time groping Blackfire under her top.

Blackfire lets out a noise of surprise... but doesn't try to stop it, even as Jinx turns things around on her. While Blackfire is contending with Adam's rock hard dick, she's simply not in a position to dominate and intimidate Jinx into submission... and the other villainess takes full advantage of that.

"You like that cock, Blackfire? You like that big fat D? Give it to her, man! Give her every last inch of your schlong!"

SMACK! SMACK! SMACK!

Jinx cackles as the sounds of flesh slapping against flesh fills the air alongside Blackfire's moans and groans. She kicks her feet on either side of them, grinning all the while and clearly enjoying the show. Sure, she might wish she was in Blackfire's place... but she's making her own fun, in the end.

Ultimately, Adam fucks Blackfire through half a dozen orgasms before finally cumming inside of her, spilling a hot thick load in her womb. Her eyes roll up in her head in response, something Jinx crows about as she watches it happen, cooing all the while.

And then, pulling out of Blackfire and dragging her off to the side to set her down in a nearby chair, Adam suddenly puts himself right between Jinx's legs. The grey-skinned villainess freezes in place at that, her pink eyes going wide as he slaps his messy, still hard prick down onto her front, grinding it against her abdomen, her mound, and her pussy all at once.

"... That thing is never going to fit in me."

Adam snorts at that.

"Shall we stop here then? Just going to give up before even starting the race?"

Jinx flushes and puffs out her cheeks.

"I know you're playing me, just so we're clear. But... go on then. Fuck me. Punch my fucking babymaker in with your big fat cock!"

Adam chuckles and shakes his head as he lines up with her cunt lips. Alright, so maybe Jinx had managed to grow on him after all. Funny how pretty girls just managed to get a pass with him, no matter their personalities. But then to be fair, they all had the same personality once confronted by his big fat cock... fucked silly.

With that said, Adam thrusts forward and claims Jinx's cunt for his own right then and there. She's no virgin but he can tell from how absurdly tight she is that she's definitely never had anyone as big as him before. The villainess squeals loudly as he fills her with his dick, shuddering her way through an orgasm right there on the table in front of him.

"Oh FUCK!"

He doesn't hesitate to set an incredibly punishing pace, plowing Jinx so hard that the table rocks back and forth with his thrusts. The sound of flesh slapping against flesh fills the room, along with her wanton moans and loud cries.

PLAP! PLAP! PLAP!

Everyone has a special talent in life, Adam likes to think. And his... his is plowing superpowered women silly on his big fat cock. Doesn't matter if they're heroines or villainesses in the end... all of them wind up the same way. Eyes rolled back in their skulls. Tongues lolled out of their mouths... and cumming endlessly as he pounds away at their pussies with every last inch of his schlong.

Jinx gets the same exact experience at the end of the day. There's certainly no sign of the doubt or derision from before, not by the time he's done with her. Her pussy weakly flutters around his dick as he at long last cums inside of her, having brought her to orgasm a dozen times at least.

He fills and fills her and Jinx takes it despite her slender frame. She takes it all... and then promptly passes out on the table in front of him.

Blackfire immediately takes over cleaning him with her mouth, tongue, and lips after that, having recovered enough from her own turn by that point. Adam lets her do so right up until they finally get kicked out of the restaurant for all of the very obvious noises they've been making.

Adam doesn't think that's his fault though... its Blackfire and Jinx who should have kept it down, at the end of the day.
