

XMAS SPECIAL

Studio Kami:

First of all, thank you for supporting me to do this project. Is it perfect? Of course not. But I learned a lot and gained experience that will make my next work better. This is my first Ren'Py sandbox experience. It took me 25 days in total, including learning time. I worked on it for at least 13 hours per day.

There were many things I wanted to add to the game, but it's a Christmas special edition and my time was very limited. Thank you all and I hope you have a good time.
