USER MANUAL & TERMS OF USE

ABOUT MY SIMS

All Sims presented in this download are created specifically for preview purposes. The images you see are unretouched CAS (Create-a-Sim) screenshots, meaning no external editing or manipulation has been applied. What you see is what you get in-game (depending on your mod setup). Most face-related custo content - including makeup, skin overlays, eyes, and hair - is included unless clearly stated otherwise. Clothing is generally not included. Sims may appear wearing my custom t-shirts for branding purposes, while all outfit creators are properly credited wherever applicable.

IMPORTANT NOTICE

To achieve a close resemblance - especially for celebrity Sims - I use a combination of: Custom skins (included), Sliders from various creators (included unless stated otherwise) Please note the following: I am not responsible for any distortions, broken appearances, or issues caused by: Outdated sliders, Slider incompatibility, Conflicts with other mods in your game.

Using too many sliders in The Sims 4 can sometimes result in distorted or broken Sims. Unfortunately, this is a known limitation and cannot always be fixed.

To minimize this risk, I primarily: Use body presets, Apply very minimal face sliders. Because of this, Sims should generally appear very close to how they are presented in the previews.
