Chapter 5

I woke up to a rustling coming from the living room. I jumped up, naked and still a bit spent from my pre-sleep activities. I barged into the living room and was surprised to find two other women in there, naked. Both resembled Sam but they were different colours. One had pure white skin, same texture as Sam but there were some accents to the colour, black lines and even some blue. The colour scheme looked familiar. She was taller than Sam though, at least when I first met her. She wasn't short, she was already a steady six feet tall, her long legs dominated her frame, her ample bust jiggled as she turned to me. In the corner of my eye, I noticed that my console was missing and then it hit me.

She is my console...

Before I could open my mouth, the other woman spoke. "Hey Braden."

I looked at her and was taken back, the woman was thick, really thick, her thighs were large and soft, they were causing a rise within me. This mysterious second woman had a strange look about her, leather-like in texture, her skin was shiny and chocolate brown. I looked around the room quickly and noticed that I was missing an Armchair. Returning my gaze to her, I was greeted by the thickest and

most perfect ass I had ever seen. Standing at around five and a half feet tall, she looked like a model. I couldn't even answer because I heard another large crash coming from the kitchen. I dashed into the room and saw another woman, she was charcoal black, shiny and had some silver accents about her body from what I could tell, but it was hard to notice because this woman was clearly based on my fridge.

She was overweight, her belly was swollen before her, she tapped it and looked me in the eye.

"Hey." She said in a breathy tone, the seductive gaze aroused me.

My cock had been rigid since I walked into the living room, and I saw the first two naked beauties. I heard a knocking on the window that startled me.

Window? I was on the second floor.

Window was right, I opened the curtain, uncaring of exposing myself to the world. I was greeted by Sam's large smiling face. I couldn't help but yelp and jump backwards, bumping into the soft expansive belly of this new woman in my kitchen.

"Come outside." She beckoned.

I didn't want to risk saying no to this giantess, so I rushed out the door, stopping for only a moment to put my dressing gown on. Rushing down the stairs and standing on the path that leads to my door, I looked up and saw Sam in all her glory.

She was naked, huge and busty as ever. Standing now around twenty feet tall, the massive beauty loomed over me, she needed to lean forward to see over her large breasts which stuck out a few feet themselves at this point. She smiled and spoke in a soft voice; due to her size it still boomed and shook my chest.

"I see you've met the others..."

She lowered herself onto her knees, cutting a large amount of her height down, but still towering over me, if anything the difference was now that my body was in danger of being consumed by her large cleavage.

I could feel the heat radiating off of her massive melons, they were about half the size of my body, I could've easily stood between them and accepted my breast prison. I couldn't take my eyes off them; Sam's voice shook me once more.

"What do you think?" Her large hand stroked up my side, the friction causing my robe to displace and reveal my cock, still as rigid as it was upstairs.

"I see..." She winked. "Now... Was that for me or for the others?" She giggled.

I looked up from her mighty breasts and spoke for the first time this morning. "What is going on..."

Sam lunged forward and knocked me onto the floor, her massive boobs covered my body and pinned me to the floor. I felt their softness envelope my body and my cock stuck into the pliable grey flesh.

"He speaks." Sam joked. "Well... I was there, you made that wish." Sam was there, she was my phone after all. "I must've been hit with the magic first, so maybe that is why I am here first and so... big..." She teased.

"Does that mean there will be more?"

"I don't know, I'd suspect yes." She mused.

"And the three upstairs... They'll grow like you?"

She nodded. "Your guess is as good as mine though..."

As if on cue the three women joined us in the front garden. My cock twitched.

“We’ll need to name them.” Sam said.

“No need, we already took care of that. I’m Daisy.” The thick bottomed woman spoke first.

“I’m Valarie.” The tall woman added.

“I’m Regina,” The plus sized woman added.

“There seems to be a theme with them... Wouldn’t you say?” Sam pointed out.

She was right, their features, each of them seemed to have a specific type about them. This only made my cock twitch and pulse more, imagining them with bigger assets. Valarie clearly being the tallest one, she would be in the clouds soon enough. Daisy’s ass would be able to crush a car by morning. Regina’s belly, that would be insatiable, a massive wrecking ball in size.

I shuddered with anticipation. Sam huffed.

“I’m right here...” She said with an annoyed tone. “Am I not big enough to keep your attention?”

I tried to correct my involuntary reaction, but I was met with an odd feeling.

A tightness on my chest.

...

Wait.

The pressure increased, I looked Sam in the eyes, and I watched on as she was slowly moving away from me, her boobs pressing me into the floor, her body was growing too. The already huge amazoness was now growing in real time.

“If I wasn’t big enough, why didn’t you say?”

The speed in which she was growing was now increasing, I felt her boobs spread over my body. Her warm flesh pressing against my chin as her breasts bulged up. Her large head now loomed

closer, and she planted her lips over half of my face and gave me a big kiss before she lifted herself off me.

Any longer and I wouldn't have made it...

I was gasping for my breath but any breath I did have was taken quickly away by Sam now standing over me. She was a few feet larger once again, she was truly huge and stark naked. I started to move but I felt her large foot press down on my body and pin me to the floor again.

'Nuh huh... I think it's only fair you have your turn with the other girls before you move. Isn't that right ladies?'

I looked past the giant foot now on my chest at the three girls who flanked me.

Daisy opened her mouth. "Who's first?"
