

a day at **THE [NUCLEAR]** **SUBMARINE** FoundryVTT module

FOUNDRY VTT LINK:

<https://cloud.adayat-maps.com/s/gN2WBfq8fisMEFP/download>

Unsure how to install the module? Take a look at the „[ADA]_How-to_Foundry_modules“ PDF

NOTES:

GENERAL:

- This map module was created with foundry vtt version 12 and is only compatible with versions 12 and higher
- My „a day at“ modules can become quite big as they come often with many variants and options. To prevent your FoundryVTT memory from being unnecessarily stressed and your loading times from becoming terribly long, I recommend only importing the maps from the module that you actually need.
- In case I release an update for the module in the future, I recommend that you do not overwrite the module with your customized scenes so that they are not lost in case there is an update.
- To avoid transition problems with future foundry vtt versions I keep the modules „vanilla“ - that means I don't use 3rd party modules that you need to download to make them work.

SUBMARINE SPECIFIC:

LEVELS MODULE:

- This map pack includes a version with LEVELS module integration next to the Vanilla ones. If you want to use the maps in this way make sure to download / activate the [Levels module by the Ripper93](#) and associated modules for it to work.

FOG OF WAR IMAGES:

- [Only on the submarine sublevel] The floorplans are integrated as „fog of war image“ in the „lightning“ tab of the scene configuration. If you dont want to use them you can just delete the image path.

FLOORPLAN VARIANTS:

- In the module folder you can also find empty floorplan variants in case you dont want to have text in them. [...Modul\a-day-at-21-the-submarine-set\maps\floorplans]

VARIANTS:

- In the module folder you can find also different variants for the submarines that arent integrated as scenes:
- Open / closed hatch on the tower on level 0
- Filled / empty water tanks on the sublevel

I wish you a lot of fun with the maps in your sessions!

If you have troubles or questions dont hesitate to reach out. The best way to do that is by joining the a day at
