

SWIMMABLE WORLDS – MAGIC REALM

BY NERDYDOLL

Step 1: Save the Backup Folder

The backup folder serves as a way to revert to the original world files (uninstall the mod) without having to repair the game.

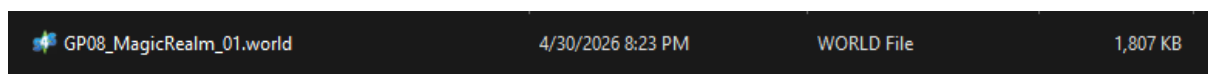

Save this folder to any desired place.

Step 2: Open the World Files Folder

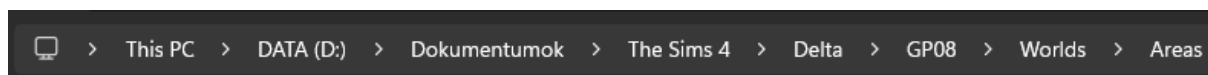

Open the World Files folder and copy the world you want to be swimmable.

GP08_MagicRealm_01.world - The Magic Realm

Step 3: Copy the Files into the GP01 Delta Areas Folder

This is an important step! You must navigate to the Delta Folders. They are located in the same directory as the EP folders.

Note: This is **not the same** folder as your Mods folder!

Windows Computers:

EA App: C:\Program Files\EA Games\The Sims 4\Delta\GP08\Worlds\Areas

Steam: C:\Program Files (x86)\Steam\steamapps\common\The Sims 4\Delta\GP08\Worlds\Areas

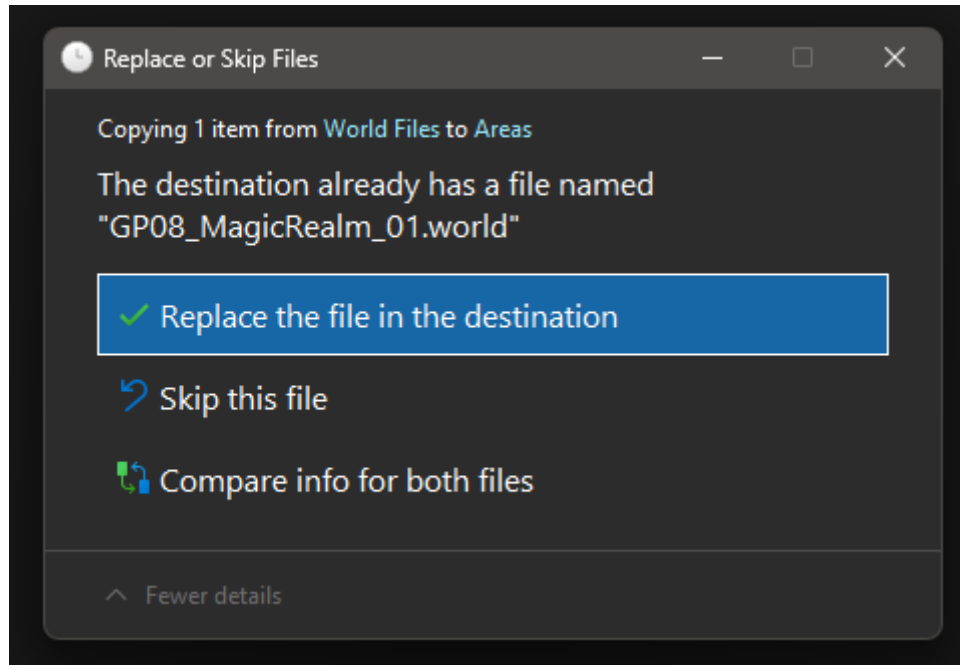

Origin: (if you installed before the EA App, now you would be using EA App to launch)
C:\Program Files (x86)\Origin_Games\The Sims 4\Delta\GP08\Worlds\Areas

Mac Computers:

Alternative 1: MacintoshHD\Users\YOUR_NAME\Applications\The Sims 4 > Right-click on The Sims 4.app and choose Show Package Contents\Contents\Delta\GP08\Worlds\Areas

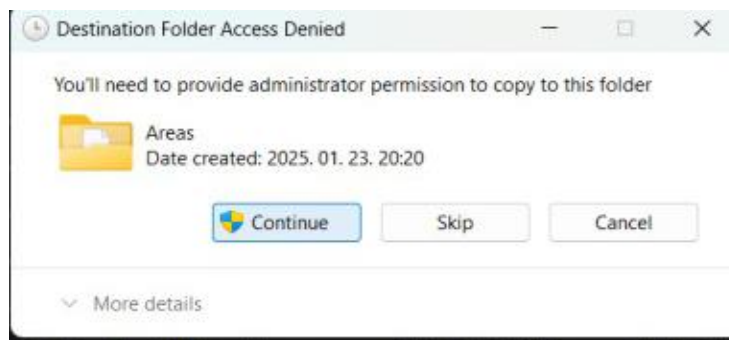

Alternative 2: MacintoshHD\Applications\ > Right-click on The Sims 4.app and choose Show Package Contents\Contents\Delta\GP08\Worlds\Areas (If you have chosen a custom installation path, you will have to navigate to that)

Note: If you have custom installation, you must navigate to the desired place!

Replace the .world files. You must click on the *"Replace the files in the destination"* prompt.

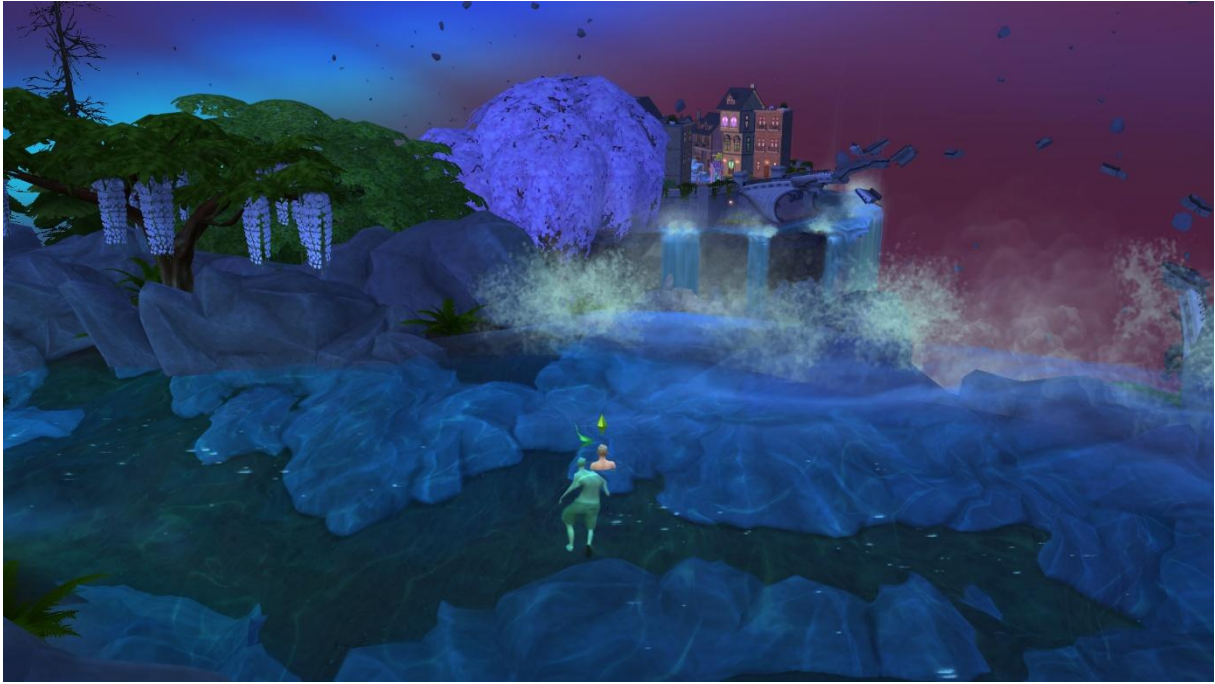

It might happen that you receive the prompt: *"Destination Folder Access Denied"*. In such case, you must click on the "Continue" button to be able to paste the new files into the folder.

After Installation

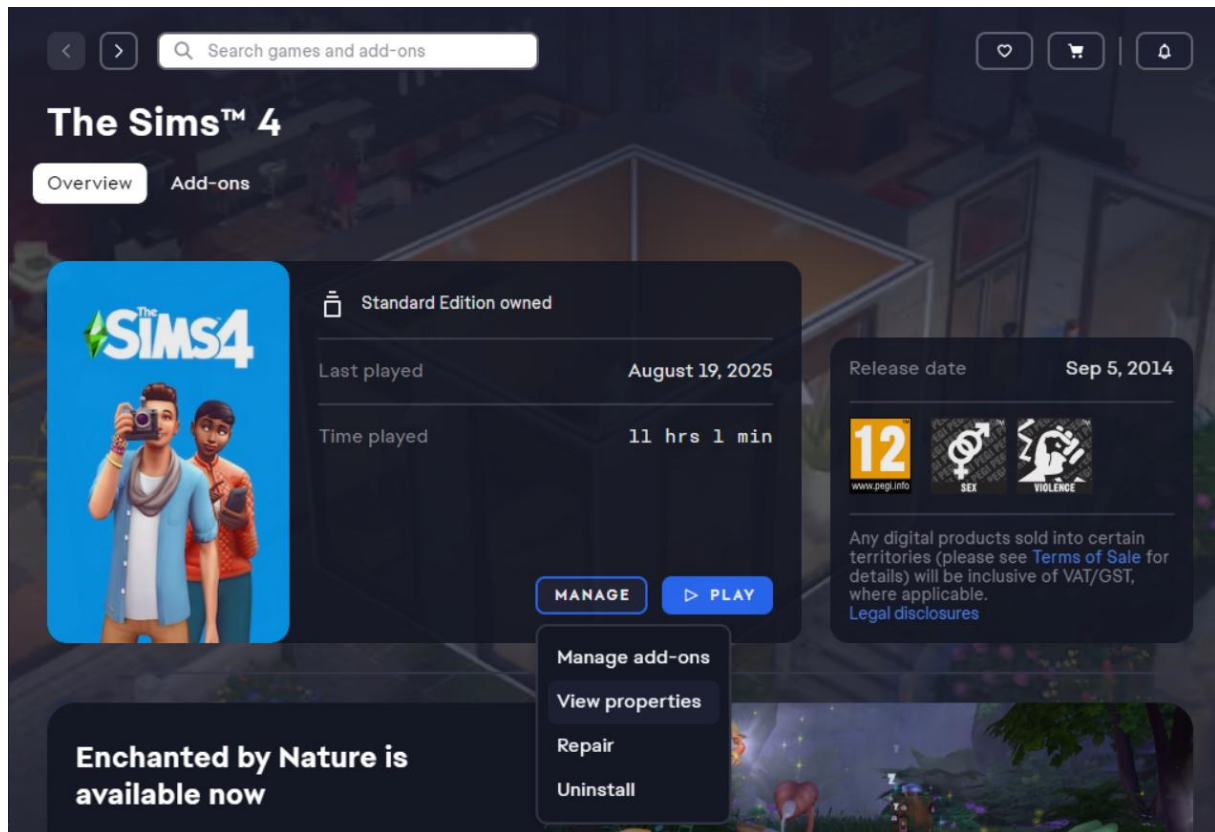

Where to enter the ocean?

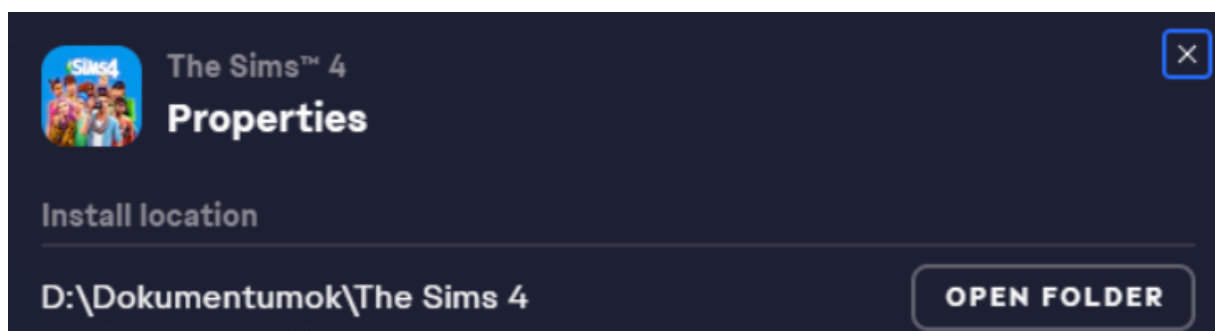

Troubleshooting

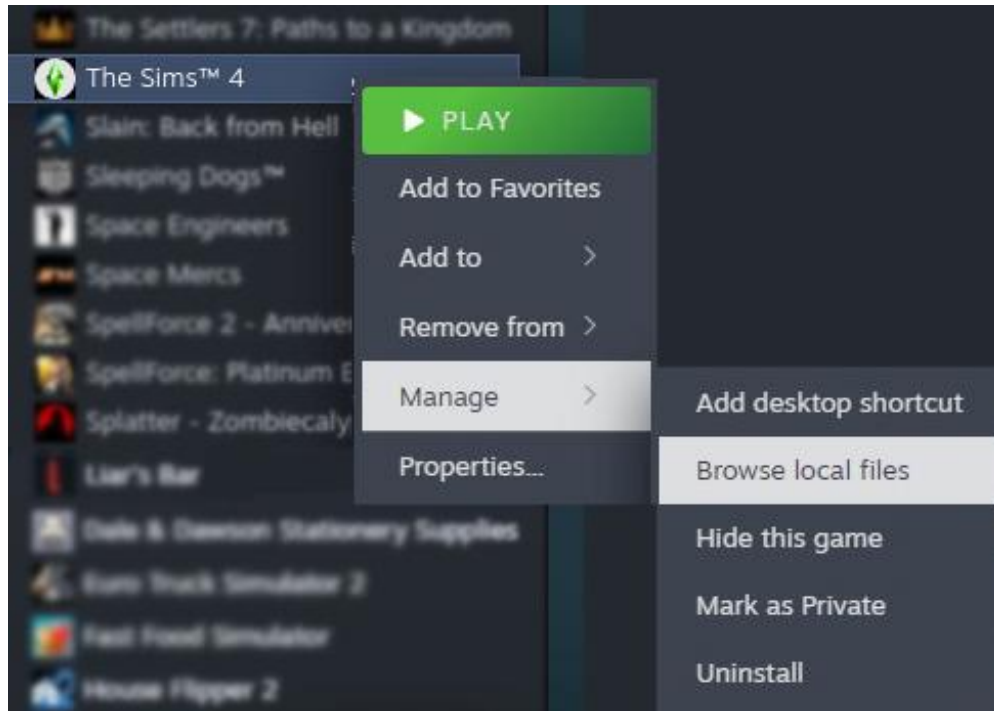

How to find the game folders? (through EA App)

Click on the “Manage” button, then “View Properties”. This will show you the location of your Game Files.

How to find the game folders? (through Steam App)

Right click on the Game, then click on the “Manage” button and “Browse local files”, this will open your folder.

The world is not swimmable, what to do?

Re-check if you added the world file to Delta folders.
