

You were laid out on the bed, as your partner removed your headphones, staring down at you in your tranced out state. "Awh, sweetie, you look so cute, all blank, and blissed out for me." You let out a pitiful, pleasure fuelled whine. "Oh, what's wrong? Are you desperate?"

You nodded, slowly. "Are you needy? Yeah? Good. That's what you deserve to be. A lust filled little plaything, ready for me to use." They cupped your cheek. "And you are ready, aren't you? Yeah?" Their hand trailed down your body, before pulling away.

"Well too bad. I want you needier. I want you more desperate. I want to see you lost to it all." They slipped the headphones back over your ears, and your brain sank away again, into mindless bliss, their words continuing the assault on your thoughts, on your senses.
