

# ATTUNING FORK

*Wondrous item, rare (requires attunement)*

ATTUNING FORK

*It is unclear who created this fork, but all that is left behind is an enhanced ability to bond with magic and a pleasant sound whenever you hit it against an object.*

---

While attuned to this fork, your magic item attunement limit increases by 2.

When hit against a hard surface, the fork also produces a loud, clear 440 Hz tone only audible to creatures of your choice within 15 feet of you. This sound lasts for 1 minute, and creatures that hear this tone have advantage on one group Charisma (Performance) check they makes for the duration, provided they are playing pitched instruments.
