ONE EVENING...

Hey Pepper?  
You doin' OK over  
there?

You're lookin'  
a bit sweeter and  
puffier than usual.

I am sorry, I believe  
my bodys reproductive  
cycle has begun.

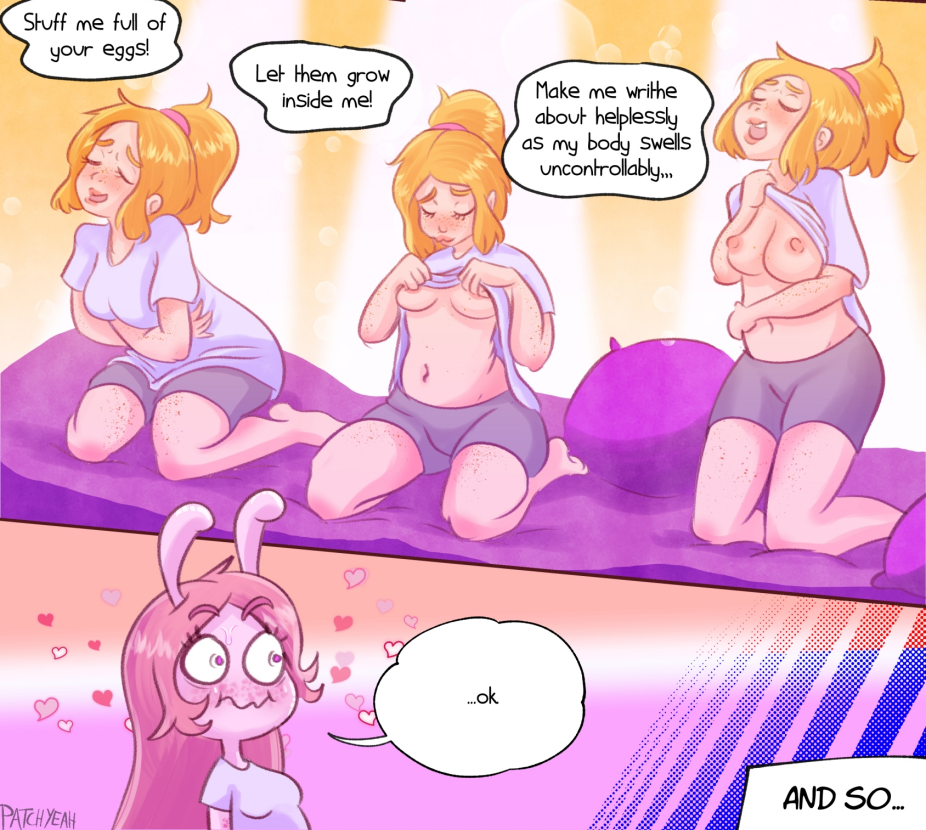

Oh damn!

You alright?  
Want me to get  
you a hot water bottle  
or something?

I am fine but  
my body is producing  
many eggs...

and I am trying to  
resist the instinctual  
urge to seek  
out and impregnate  
a nearby host.

IN THE BEDROOM...

Are you really sure about this?

God no I'm terrified!

But I trust that you'd never do anything that could really hurt me, right?

Right!

BONK

Hnaaaahh!

SPLORP

OH WOAH!

HOLY CRAP!

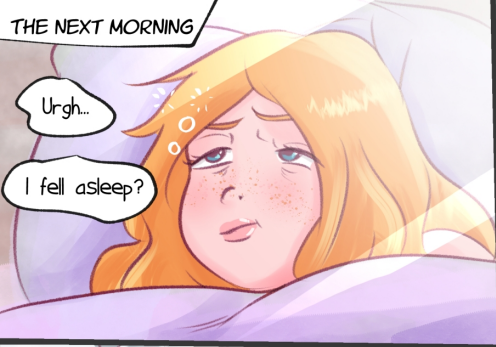

YESS!

This... nhh- feels... ahh- really gross!

PATCHYEAH

THE NEXT MORNING

Urgh...

I fell asleep?

Huh...

Is this it?

I guess I'm a little pudgier?

POKE POKE

Man what a let down.

Stupid sexy alien sluggirl...

getting my hopes up like that.

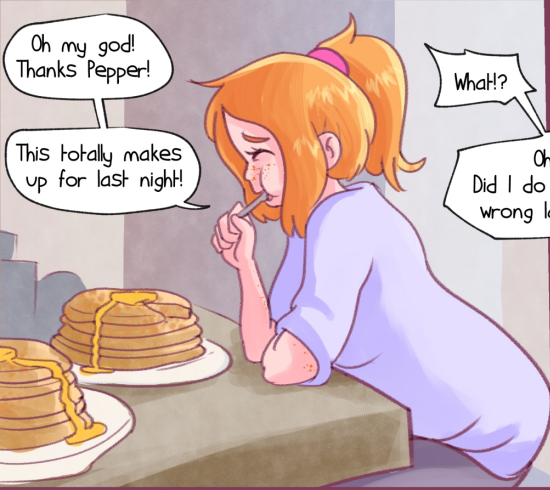

Good morning Molly!!!

I made you pancakes!

All is forgiven!

PATCHYEAH

What!?

Oh no!  
Did I do something  
wrong last night?!

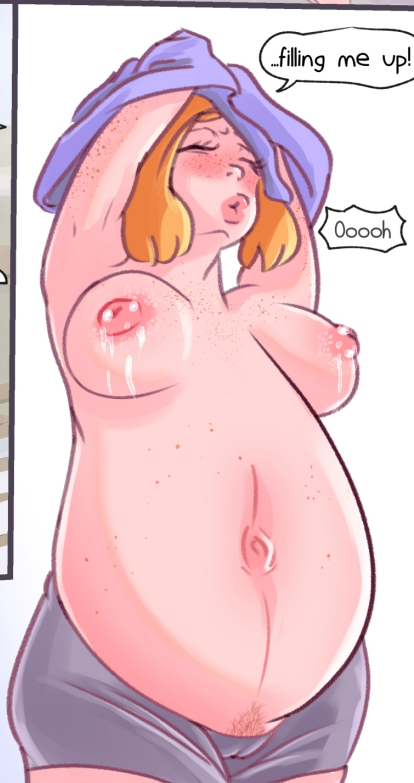

Oh well that's  
because you needed  
to feed first silly!

Now you should  
probably hurry over  
here when you're done!

I made you a nest!

What's happening?  
My boobs are gushing!

That's because  
as far as your body  
is aware, you're about to  
have *all* the babies!

W-wait! These are  
just eggs right?

T-there's not  
any *actual* babies  
in me r-right?!

I just wanted to be a  
hot sexy swollen mess!  
NOT a friggin' mother!

Don't worry Molly!  
It's OK!

The unfertilized eggs will continue to grow inside you...

and your body will become large and appealing...

PATCH/YEAH

Woo!

No  
Consequences!

but without any other creature around to inseminate them, they will eventually just be discharged and simply dissolve away into regular ol' goop.

Yaay!

Gaahh!

GLORNK

AHHN

Wh-what's happening?!

I'm blowing up all of a sudden!?

The eggs are reacting to your state of mind!

When they sense that their host feels safe and happy it encourages growth!

PATCHYEAH

How... how big will they make me?

They will allow your body to continue to stretch and swell....

...so long as you desire it!

Th-that's....

HAH  
HAH

...really considerate of them!

Nnghhhh!

GLORMP!

Haaaahh

Yes! Yes!

It feels so good!

Bigger!

Please!

I want to be bigger!

Hngmmph?!

As you wish!

PAMNCAEK!!!

Mmmhphhhh!!!!

BLORT!

STRETCH

GROAN

"SOUND"

PATCH/YEAH

AHH S-so... full...  
AHH so tight...  
Everything's so-  
unnnggh sensitive!

N-no more!  
I-I can't...  
I can't...

AHN  
AHH

PATCH/EAH

FUCK!  
OH FUCK!

I feel  
them!

Pushing and...  
nnngghh

Spreading me!

Aw wow that's  
my girl! You're  
so big Molly!

OH GOD  
YESS!

GROAN

sksssh

Poor Polly, her once slim and ridiculously sexy and attractive body was now an impossibly bloated ball of sexy flesh about the size of a very round and flabby Mini Cooper stuffed with 46 sexy watermelons. Her ripening swollen bod quivered and pulsated as the eggs inside her jostled and squirmed their way towards her toight trembling nethers...

With a tight slick burst the eggs would be birthed and each time an orgasmic wave of excruciating pleasure surged throughout Polly's throbbing swollen form.

Two long days had passed since the alien beast had pumped her full of its spawn. How much longer would the poor girl have to endure this exquisite torture? trapped inside her own bloated mass, nothing more than a helpless sack of eggs for a cruel alien.

PATCHYEAH

The pancakes are ready Molly!

Awwwww yis!  
I friggin' love you!

Ooh! Are you writing more of your special stories?

Yup! Guess you could say I'm just full of 'inspiration' right now heh heh

Haha! No you silly!  
You are full of unfertilised xenogoeptic oocytes, colostrum, estrogen, somatotropin, oxytocin, endorphins...

...and pancakes?

END.

QUITE A WHILE LATER...

Whew! As fun as it was, this is taking forever!

Thank god I wasn't actually pregnant!

Could you imagine?

Yes!

bloop

Your body would've grown at least two or three times bigger than you were!

What!?

So swollen and round, you'd barely look human.

Dude...

Uuh~

Pumped full of hormones you'd become a blissful fat womb, churning in euphoric ecstasy.

oh  
-gulp-  
ok..

And soon all the new life that  
bloomed inside you would  
surge forth!

So what, I'd squirt out  
a bunch of  
wee slug babies  
or something?

Yes! Hundreds!  
Maybe thousands!

Hmmm...

NAH.

Thanks  
for  
reading!
