

Wife/girlfriend sending a voicemail after eating one or two people, teasing you about how you always like to listen to her burps.

279 words

(Femenine, voice sweet with a hint of mischief)

Hellooooo looove~! Just sent you a little- (Closed mouth Burp) surprise on chatapp. You know me~ Something spicy to warm you up for tonight~

So~! Remember our training? Me, multiple prey, one go? Well, get ready to be **proud**, because your girl~? She **nailed** it~

There was this infuriatingly slow woman hogging the queue, right? The poor cashier had to explain the return policy three times. And you know what happens when I get impatient. **One** gulp. Gone.

And oooohh my goodness~ She tasted soooooo goooooo~! She had this... Perfect kind of squishyness? Not too soft, just heavy enough to stretch me tight~ Exactly how you like seeing me, right~?

Aaaand then- plot twist. Her friend shows up. For a second I thought, "Ooohh no I've ruined it..." But the I remembered our little exercises. Deep breath... hips low... And guess what~? I squeezed her in too~!

Mmmhh~ Two whole girls, and not a single hiccup. Burping a lot though. (Burp) (femenine laugh)

Anyway, im waddling home now, absolutely stuffed. Seriously, if there had been one more, I'd be laying on that store aisle bursting. But nope~ Just two squirming ladies melting in their rightful place... Inside your wife~

And honestly~? I mostly called you to burp in your ear a little~ I know exactly what my little weirdo loves~ Ready~?

(Two bellypats)

(Massive burp) Oooohh~Had been holding that one for a while~ (Laughing, flirty tone) I swear, you are get tooo used to this~

Hang on... (Loud burp) Ooohh~that felt good~I can sense your smile from here~ (Laugh)

Anyway! Hope you are surviving work without me! Don't return too tired, we are not stopping until they are completely gone (Small laugh)

Love you, darling~!

(Small burp)

Bye~!
