

PARADISE DARK

INFO AND DETAILS part 1

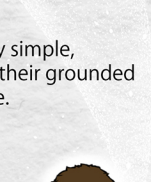

How to spot them in public

THE NOBLES

Nobles often wear dark, gothic-romance-inspired attire, exuding elegance and mystery.

Their color choices

Their dominant color.

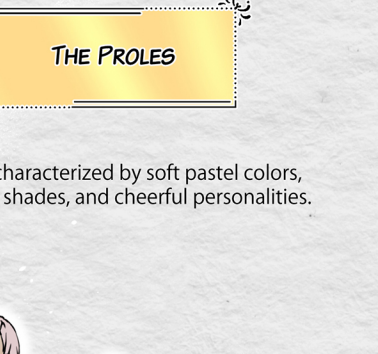

THE BOURGEOIS

Bourgeois typically embody simple, natural, earthy designs, reflecting their grounded and practical nature.

Their color choices

Their dominant color.

THE PROLES

Proles are characterized by soft pastel colors, unique hair shades, and cheerful personalities.

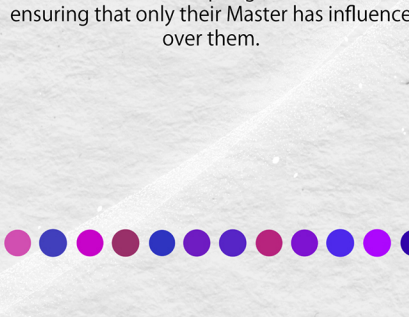

Their color choices

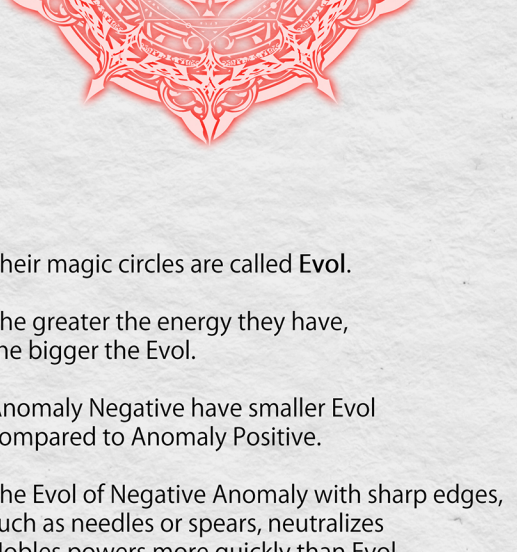

Their dominant color.

The Collar

Collars are worn by Proles with Masters. These collars block the Evol (magic circle) of other Nobles attempting to control them, ensuring that only their Master has influence over them.

The Evol

Their magic circles are called Evol.

The greater the energy they have, the bigger the Evol.

Anomaly Negative have smaller Evol compared to Anomaly Positive.

The Evol of Negative Anomaly with sharp edges, such as needles or spears, neutralizes Nobles powers more quickly than Evol with smoother, rounded edges.

Negative Anomalies possess the unique ability to see Evol, just like Nobles, a capability not shared by Bourgeois or Proles.

Nobles' control abilities

- Nobles can control Bourgeoisie (35%) and Proles (100%).

- Nobles cannot control other Nobles unless they are Anomaly Positive.

- Anomaly Positive cannot control one another, but their Evol can weaken each other's powers, depending on whose energy is stronger.

Inheritance Results

Nobles x Nobles:

Nobles (99%), Anomaly Positive (1%).

Nobles x Bourgeois:

Bourgeois (70%), Nobles (30%).

Nobles x Proles (strictly forbidden):

Bourgeois (99.9%), Negative Anomaly (0.1%).

Bourgeois x Bourgeois:

Bourgeois (100%).

Bourgeois x Proles:

Bourgeois (70%), Proles (30%).

Proles x Proles:

Proles (99.99%), Negative Anomaly (0.01%).

Forbidden Marriages

Marriage between Nobles and Proles is strictly prohibited.

If discovered, the government tightly monitors the pregnancy until the child is born.

1. If the child is Bourgeoisie, the government exiles the child and heavily fines the parents.

2. If the child is a Anomaly Negative, the government executes the child along with both parents.

Anomaly Negative from Proles x Proles are exceedingly rare, almost nonexistent.

Characteristics by Class

- Nobles mostly live in the capital and 85% of government employees are Nobles.

- Most Bourgeoisie are physically robust with high empathy.

- Only Proles receive government subsidies (food, housing, clothing), which cease entirely at the age of 18.

- Up to the age of 18, Proles are taught by Bourgeois to gain the knowledge and skills needed to serve the Nobles effectively.

Proles' Rights

- Proles cannot vote due to being deemed easily controlled.

- They are also barred from leadership roles due to innate traits that often put them in danger.

- Proles who refuse to have a Master after they turned 20 years old will be captured and sent to training camps. The government has never provided detailed information about their fate afterward.
