Summary: An AU where Jade is an adult and Naruto is a kitsune. When Jade casts a duplication spell without adding a finishing stone, the sight of Naruto's busty girlfriend and all her clones causes his mating instincts to take over.

“Oh Na-ru-to~”

Foxy ears atop a human head lift and twitch at the sound of his sexy girlfriend's lilting tone. Though, Naruto still doesn't open his eyes right away. Instead, the male kitsune stays where he is, resting back and seemingly napping as he lounges unmoving on the couch.

“Hm... still cross with me for having to bow out of our date the other day? Well, what if I said I had a way to make it up to you?”

Finally, slowly, Naruto creaks open one slitted eye, just enough so that he can see his girlfriend standing a few feet away, hands on her gloriously wide hips and large chest puffed out as she grins wickedly. Jade Chan stands there absolutely rocking the black jumpsuit she has on, just like she always does. The only thing that detracts from her beauty are the duties and responsibilities that that black jumpsuit signifies... and how often they take her away from him at the drop of a hat.

Seeing his look, Jade raises her hands.

“Don’t fret... I’m only dressed like this because I’m coming from work, not because I’m going to have to leave again. I’ve cleared my schedule for the next few days... and I thought we could have some fun together in the meantime.”

One of Naruto’s fox ears flick atop his head, expressing a modicum of silent interest even as the rest of him radiates general disinterest. Jade grins all the same, having learned to read his tells quite well during their time together.

“Let me show you, yeah? And we’ll see just what you think~”

With that, Jade raises her hands... and casts a spell. Naruto immediately sits up on the couch, wide awake and fully alert, as one Jade becomes two and two become four and four become eight. Before he knows it, the entire room is full of Jade Chans as they fill up the space and surround him on all sides.

“““What do you think, Na-ru-to? Are we on our way to making it up to you?”””

They all speak in stereo... and run their hands up and down their voluptuous, leather-clad forms as well. Then, as Naruto is sitting there tensely watching all of them... they reach up in unison, grab the zippers on their respective jumpsuits, and pull them down slowly and sensually, all at the same time.

The cacophony of zippers being pulled is louder than one would have thought possible, but the results speak for themselves. Large, creamy sets of breasts are subsequently freed from their confines and glistening wet pussy lips are revealed as unzipped jumpsuits are pulled open all over the room.

In that moment... Naruto couldn’t have held back if he wanted to. He loved Jade with all his heart, that wasn’t in question. But seeing the object of his love duplicated this many times and all stripping down for him... his mating instincts take over.

With a lustful growl, he’s up off of the couch and reaching for the first Jade in an instant, grabbing her and pulling her in for a deep, tongue-filled kiss. She yelps as the rest of the Jade clones coo over the sight, all of them continuing to strip naked while Naruto enjoys stripping that one in particular himself.

The end result is a whole bunch of naked copies of his girlfriend, all crowding around him to help him out of his own confining clothes, freeing his cock from the gym shorts he was wearing and letting it escape into open air where it springs to life already half hard and rapidly growing harder.

There's no foreplay though... Naruto doesn't have the time or patience for letting Jade wrap her tits or lips around his dick. Instead, taking the first one he'd grabbed, he lifts her up into the air, lets her wrap her long legs and arms around his body, and proceeds to impale her hourglass figure down on his cock right then and there.

The Head of Section 13 (the reason Jade was absent all the time) lets out a loud, lewd cry as he splits her open upon his dick. Her thighs squeeze on his hips and she tosses her head back in abject ecstasy. Meanwhile, all of the other Jade clones are just as eager to get involved. Even if Naruto only has the one cock to go around, they still crowd the male kitsune from every angle.

As such, there are soon hands massaging and petting all of his tails, and also hands running up and down his broad muscular chest and sides. Naruto focuses solely on the Jade he's fucking however, letting all of the touching and petting fade into the background as he sets himself like a tree, planting his feet and fucking up into his beloved girlfriend with all his might... and a single-minded sort of focus.

WHAP! WHAP! WHAP!

Jade, for her part, cries out and cums all over his cock in no time at all... and then she does it again and again, orgasming for him over and over as Naruto fucks her soundly upon his prick, the standing fuck giving him total control and leaving her completely and utterly submitting to his whims.

This lasts for a little while, the sounds of flesh slapping against flesh filling the air along with Jade's moans, Naruto's grunts, and the rest of the clones' coos and giggles. Then, finally, he proceeds to slam up into Jade from below and unload inside of her without any warning.

He also doesn't bother basking too much in the afterglow... not when his mating instincts are going haywire, telling him that while he's fucked and filled one of his girlfriends with his seed, he still has another dozen or more around him that also need to be filled.

As such, rather than engaging in cuddling or any other sort of aftercare like they normally would, Naruto pulls the first Jade off of his cock and hands her off to the collective, allowing the clones to take her and ferry her over to the nearest unoccupied surface so she can rest off her fucked silly plowing in peace.

He doesn't even see where the first winds up though, because he's already onto the second. The next Jade, Naruto proceeds to spin around and bend over at the waist, slamming into her from behind without so much as a 'by your leave'.

Not that she's complaining. Even as he pulls her arms behind her back, Jade is squealing and moaning and begging for more at the top of her lungs, all the while her large pale breasts bounce and swing back and forth in front of her.

CLAP! CLAP! CLAP!

The collective of clones also eggs Naruto on further during this time, telling him how manly he is, urging him to fuck the current Jade harder and to treat them all like mere receptacles for his seed. They tell him that they want to carry his children... and Naruto goes into an absolute frenzy off of that.

His mating instincts were strong before, but having Jade playing into them... well, she better mean it, because the male kitsune isn't going to stop until he's creampie'd every last one of them! With a half-groan, half-growl, he really gives it to the Jade before him, plowing her into oblivion and then finally delivering a hot, sticky load of his seed to her womb.

She's passed off the same as the first, while Naruto's cock remains rock hard if a bit messy. His stamina is quite literally out of this world, so it isn't like there's any danger of Jade managing to overwhelm him, even with so many bodies. No,

rather... it's more a question of if all of the clones can keep up with him after the frenzy they've worked him into.

The third Jade winds up on her back on the couch, pinned in a mating press and taken hard and fast as Naruto feasts upon her tits, groping and squeezing and sucking and biting at them to his heart's content. Her pale breasts end up quite red and messy very fast, coated in his saliva after just a few minutes.

PLAP! PLAP! PLAP!

The fourth Jade gets on the couch as well, on her knees with her ass jutting out right next to the third once he's spent himself inside of her. She presents such an inviting picture that Naruto has to give her what she's all but begging for with her body language. He winds up pounding her from behind while she creams herself for him over and over again.

SMACK! SMACK! SMACK!

The fifth Jade isn't much different, ending up face down, ass up on the ground, moaning as Naruto puts a foot on the back of her head and really dominates her roughly like there's no tomorrow. She can't quite speak, but the others all egg him on in doing so, telling him to treat her like the cum dump she is and knock her up like all the rest.

The sixth Jade... well, she gets fucked too. As do the seventh, the eighth, and so on and so forth.

Naruto fucks every single clone and then some, time itself seeming to lose all meaning as every surface in their home is 'christened' with his cock planting a hot, thick load of life-giving seed inside of womb after womb after womb.

His mating instincts might be pushing him forward, but Naruto's analytical mind also understands that only one creampie matters in the end... and the male kitsune might have lost track of which Jade was the original Jade somewhere along the way. That's okay though, because he already knows the solution... he

just has to make sure he cums in every single Jade at least once, maybe twice, and then he'll know for sure.

So he does exactly that. He fucks Jade Chan after Jade Chan, plowing the Head of Section 13 silly over and over again all over every surface of their home. Eventually, they expand to the rest of the house of course, with the living room getting a little too... overdone. The kitchen, the bedroom, the shower... nothing is sacred, nothing is safe, nothing is beyond limits.

They do have to stop a couple times for things like food and water, but even then Naruto usually finds himself ball's deep inside of a Jade Chan while chowing down on something that other clones cooked for him.

When Jade had first shown up and told him she cleared her schedule for the next few days, Naruto hadn't actually believed her. Or at least, he didn't believe it would stick. Ever since Captain Black left to make Section 14 over on the East Coast, Jade's new job as Head of Section 13 had left her way too busy. She was constantly putting out fires and dealing with problems and all Naruto could do was be the good, caring boyfriend who 'understood' why she was absent so much.

To be fair, he did understand that her work was important... he just wished she could spend more time with him all the same.

Well, wish granted now. A day turns into two and two turn into three and they're STILL going at it, Naruto's nine-tailed status giving him pretty much endless stamina and the supply of clone bodies allowing Jade to match his pace in a way she never could before.

He fucks and cums and creams in every single body thrice each before the end, really making sure to plow them all in every position imaginable and leave them each leaking his seed in copious amounts from their well fucked pussies.

But eventually... eventually, it's over. The real Jade finishes off the duplication spell and brings all of her copies back together into her original body. The pair of

them wind up laid out together in bed, Jade's belly slightly distended from the last load Naruto deposited there.

Reaching out, he presses a hand upon Jade's stomach, running his fingers along her belly and imagining her heavy with his child.

"... You know, if you do get pregnant... I'm not going to let you do anything dangerous for quite some time. You'll have to be on desk duty..."

Jade smiles tiredly, worn out despite the sheer amount of clones she'd thrown at him. Reaching down, she runs her hand over his, clearly imagining herself pregnant as she slowly nods.

"I... might not mind that, in the end."

Well fuck. Saying things like that... she brought this on herself. Naruto growls and moves back on top of her, spreading her legs wide. Jade yelps in surprise at first... but then coos in approval as his cock slides into her well-used pussy for the umpteenth time. She wraps her legs around his waist and her arms around his chest as Naruto begins to take her again... to ensure the pregnancy, of course.

It was the only way to make certain that his Jade would be his more often going forward~
