

Pandora's Box 2 Walkthrough

Version 0.24

General Information

The game uses 3 main types of points:

- **Corruption** for the Girlfriend
- **Submission** for the Boyfriend
- **Lust** for Ellie

If a choice menu has a greyed out option like this:

It means that you lack points in either **Corruption**, **Submission** or **Lust**.

There is also other hidden points like, for example: "**lesbian**" points, which if you have enough it will unlock further scenes with **the Girlfriend** and **Ellie** involving girl on girl action. Keep track of your points and Days passed by clicking "**Toggle Stats**" button at the bottom of the textbox:

Main Story

The game is a direct sequel to the story from the first part.

19 years have passed since **The Boyfriend** went to jail for the heist.

The Girlfriend now lives in a new house with her roommate (**Ellie**) who is the new protagonist in this game (together with the **BF** and **GF**).

This Walkthrough will show you what amount of points you need for each type of choice and how much points you gain through choices.
