Hands Off Wife

**FORCEFEM - HYPNOSIS
NO TOUCH ORGASMS**

+18

Good morning!

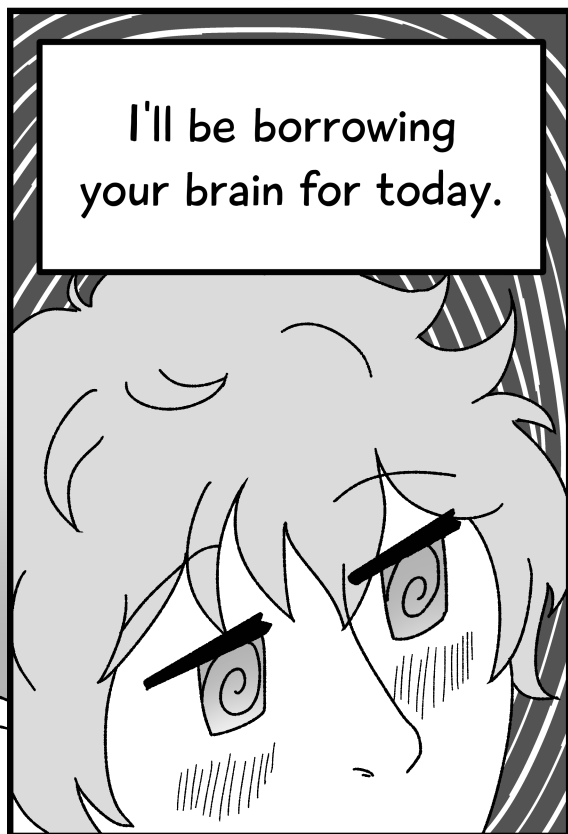

Wake up, dear!
It's a big day for you!

Your Omnipotent
Mind-control Empress
speaking here.

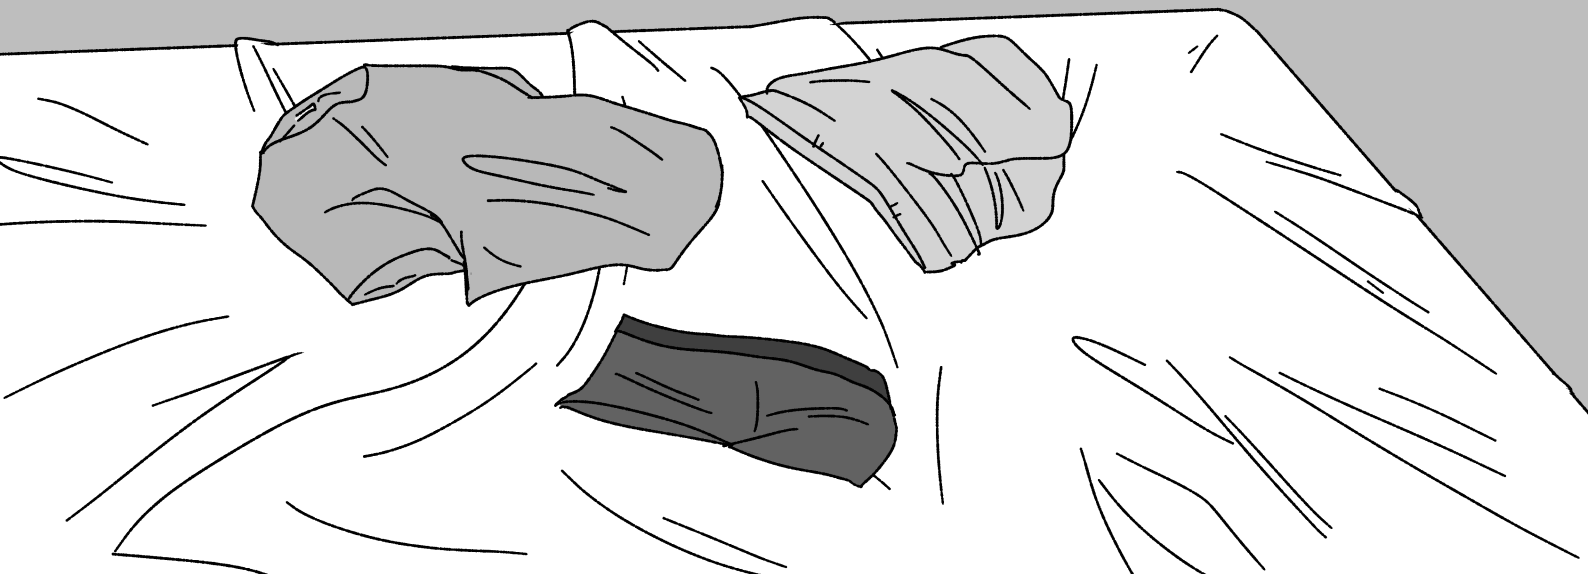

I'll be borrowing
your brain for today.

You will do everything
I tell you to do from
this moment forward.

Take off
all your clothes.

Stand in front
of the mirror
in your room.

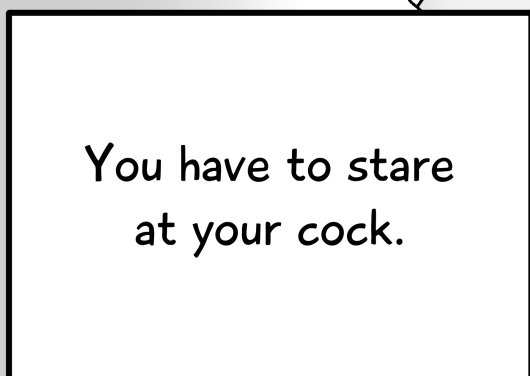

Very well!
If you keep
being obedient
like this, you'll
earn a reward!

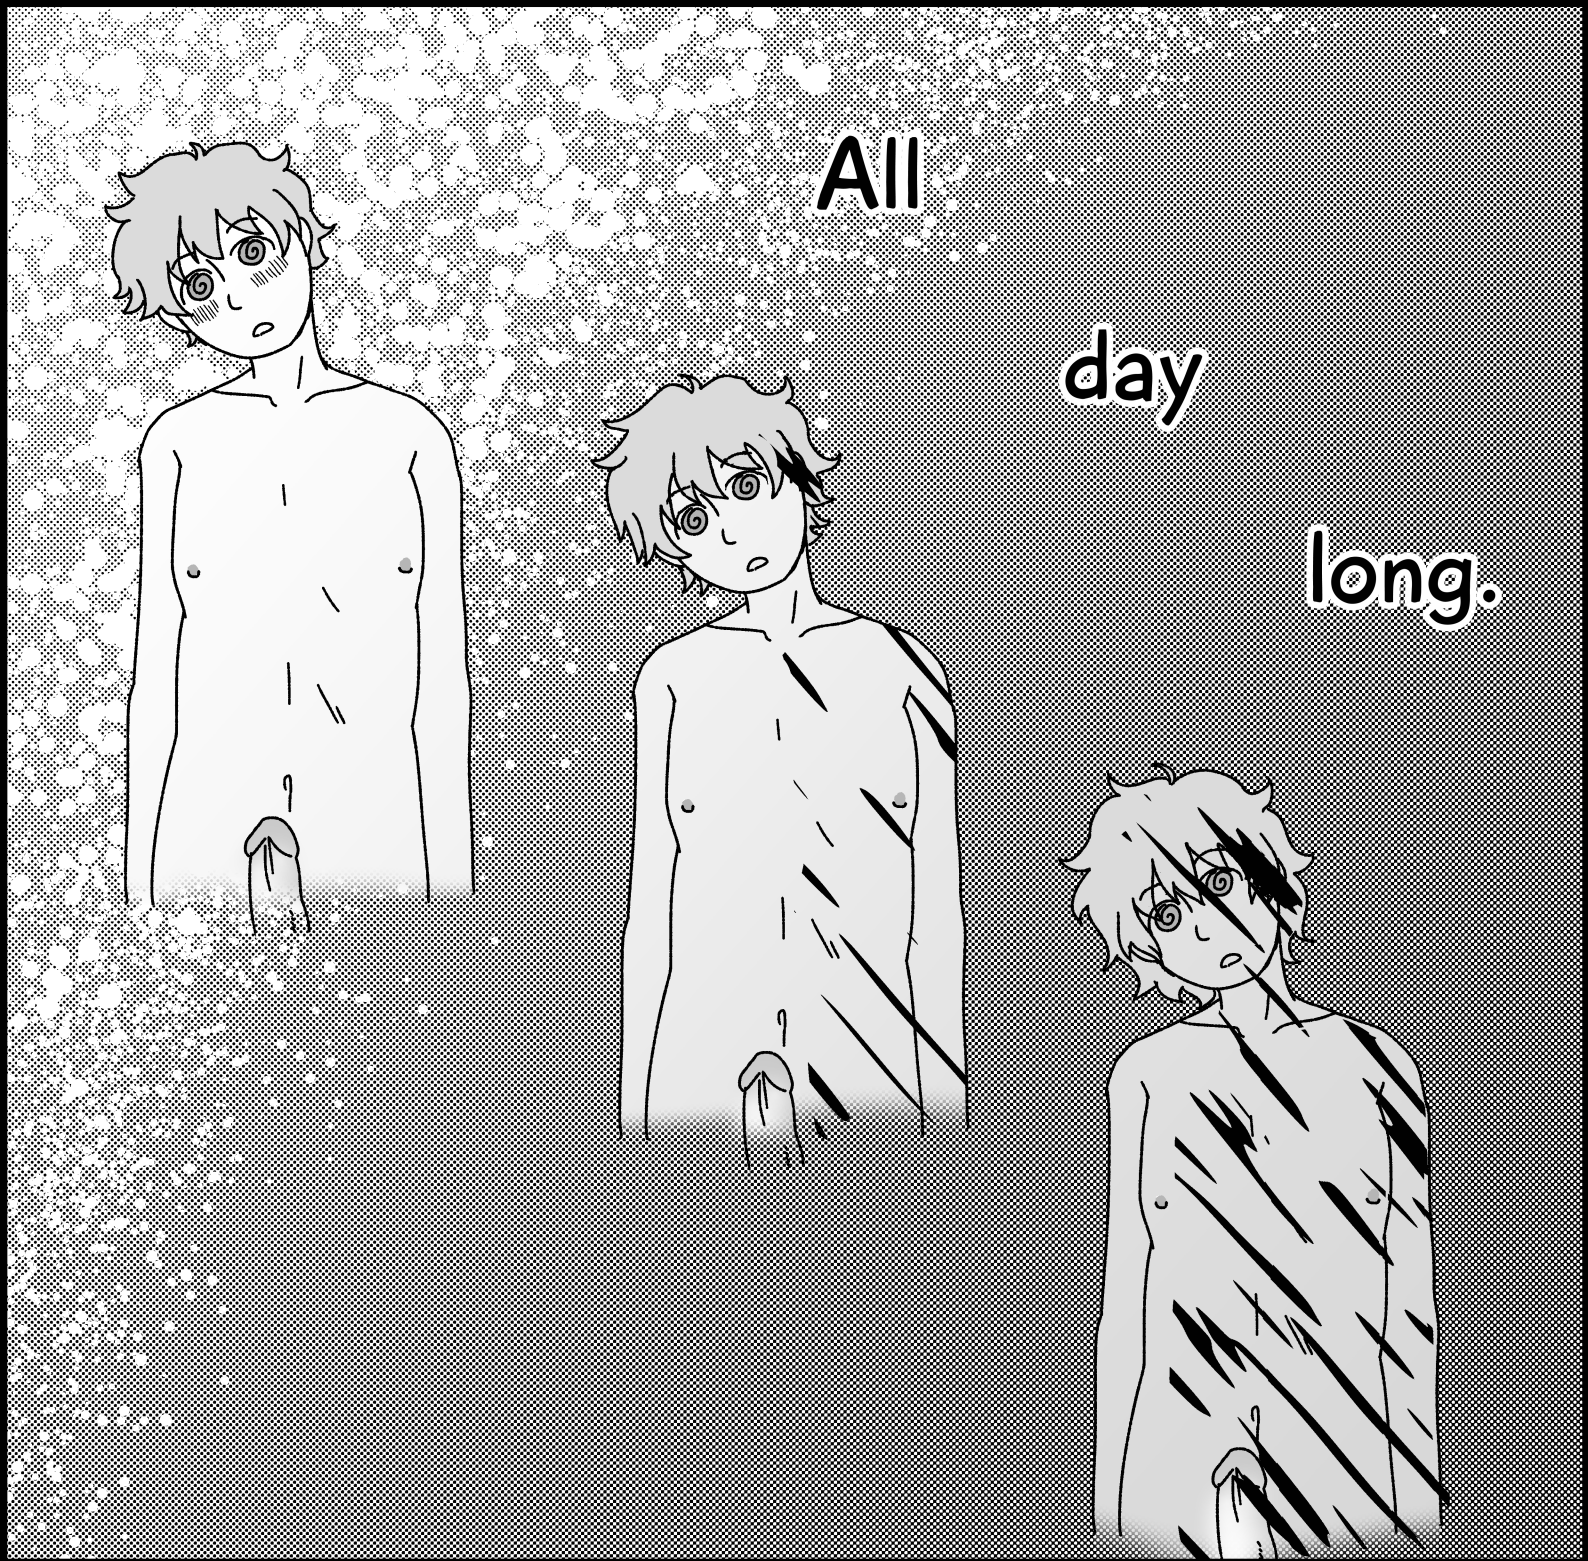

Look down.

All you have to do
is very simple.

You have to stare
at your cock.

All

day

long.

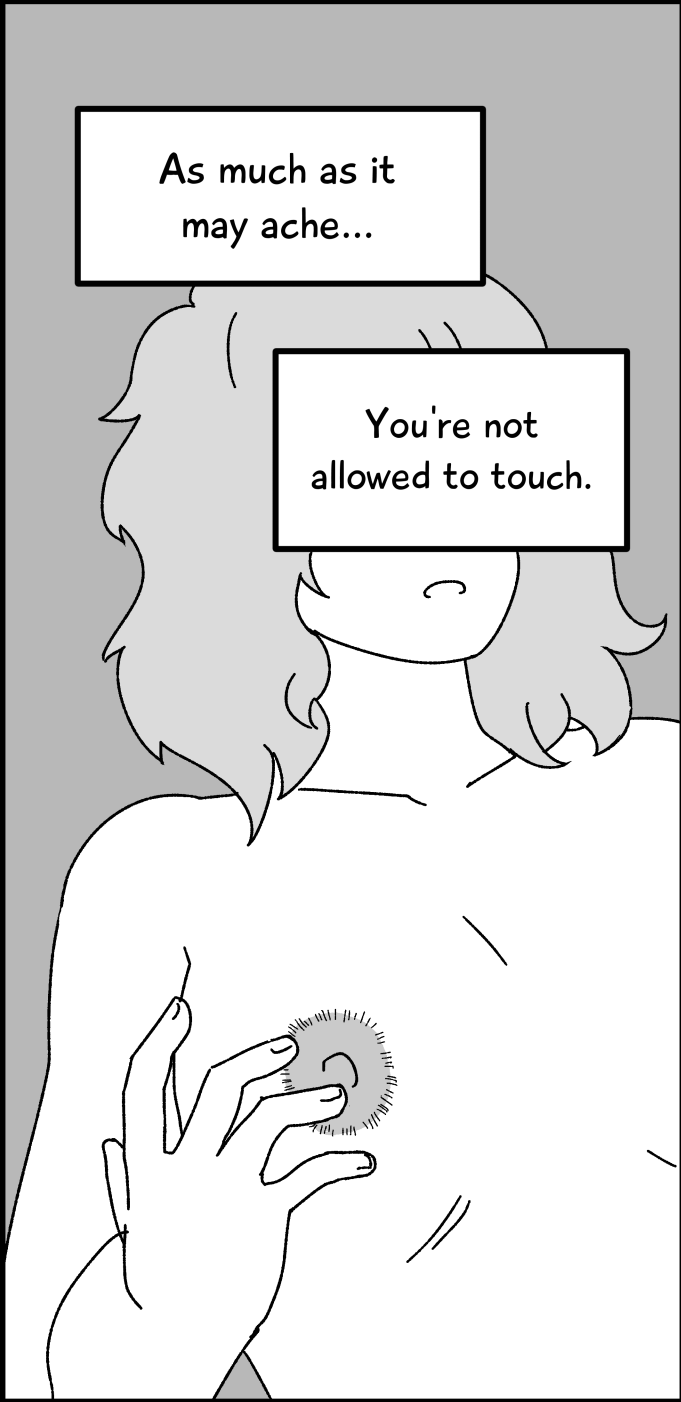

All other
things

aren't
important.

You only care about
your cock.

The more
obedient
you are,

As much as it
may ache...

You're not
allowed to touch.

More of
my in-
fluence
changes
your
body.

I'll make
it so your
cock stays
stiff any-
way.

You're allowed
to squirm,
and to gasp,
as long as you
keep looking.

just look at it

don't

touch

don't touch

Honey,
stop spiraling
and open it!

Save that
for last.

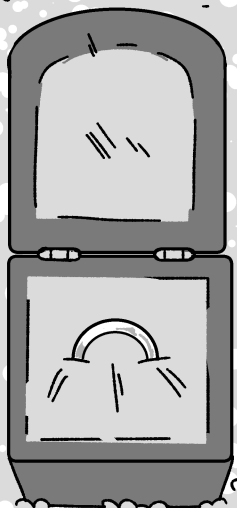

It will be for
your husband.

Look at your
own ring.

Put it
on!

Very
pretty!

Almost done
with the
preparations.

Aren't
you excited?

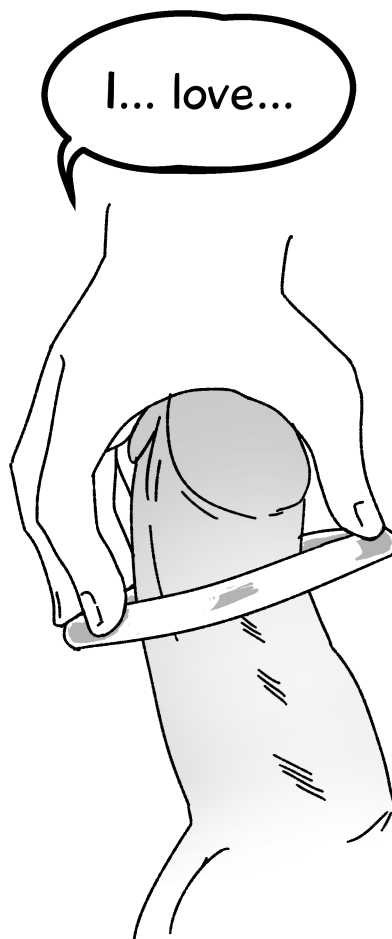

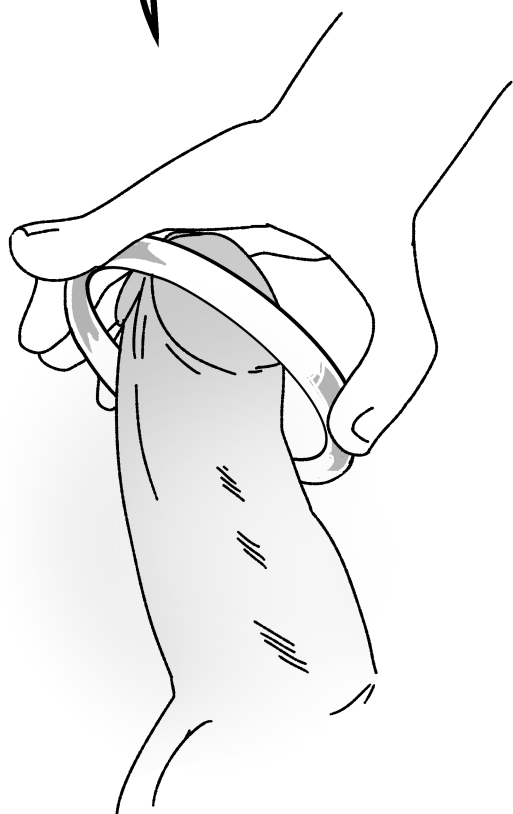

You are.

I... am...?

You love
this.

I... love...

You will
be married
for life!

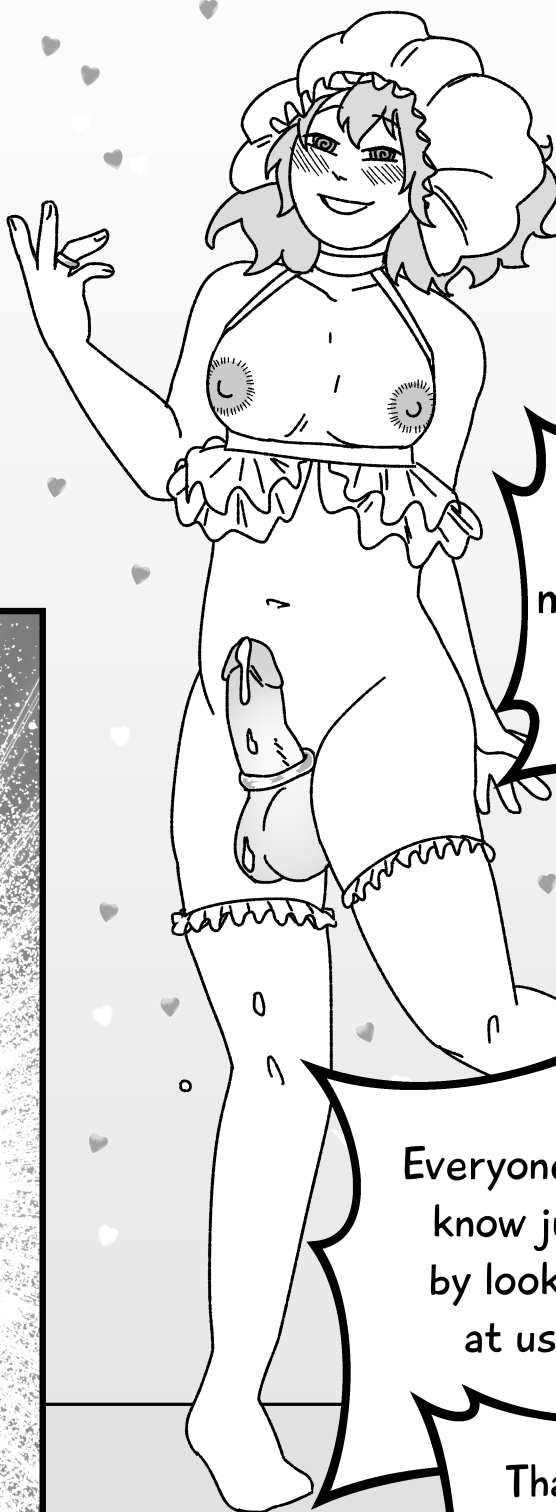

I...

It's his
turn now.

a bride to my
cock husband!!

We'll be
married for
life!!!!

Everyone will
know just
by looking
at us!!

Thank you,
Empress.
Thank you
so much!!

He does!!!!!!

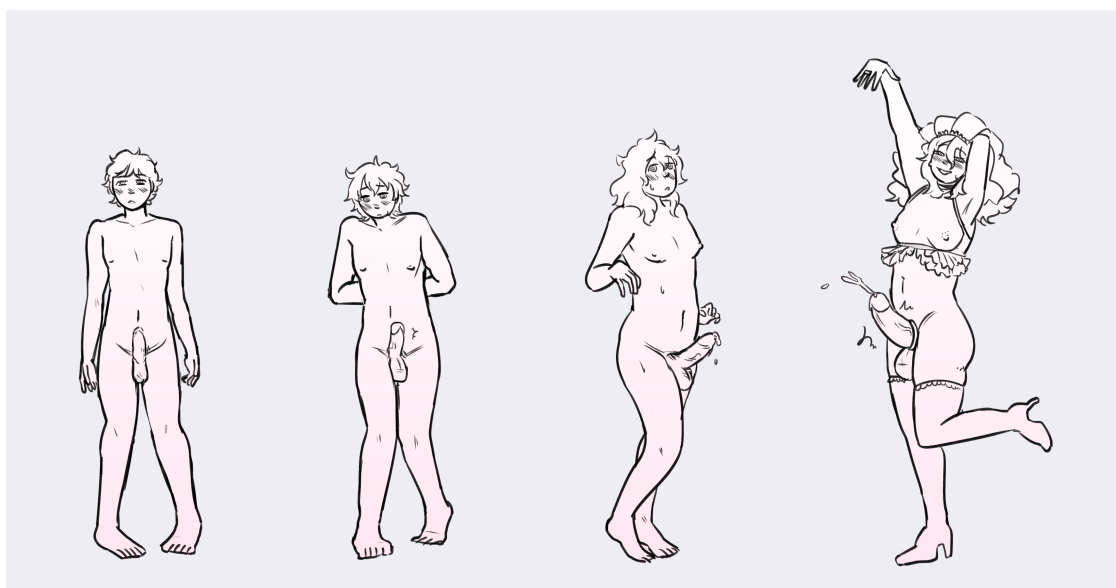

End.

Thanks for reading! It's been a while since I got so motivated to make a full comic, and I'm very excited because I got myself a new workflow that made this so much easier to get done! I hope you enjoyed it!

I didn't think of a name for the main character here before the hypnosis, so in the end I'm just settling with Wife. Pronouns are a mess but I guess she's fully forcefem'd and at the same time her (cock) Husband has enough personhood to be a him too? The more I think about it, the hotter it sounds to me.

This is the first time I delve so deeply into hypnosis. It's not something I'm extremely well versed in, but I like the overlap with transformation it can have. Especially when the hypnosis comes with some actual physical changes!

This is already a public post, but I wanted to include it here anyway. The original sequence I made when I got this idea, while I was sketching the thumbnails.

It was also a direct inspiration for the cover!

Extras

Here's a few concepts I didn't fit in the original thumbnails but wanted to explore anyway.

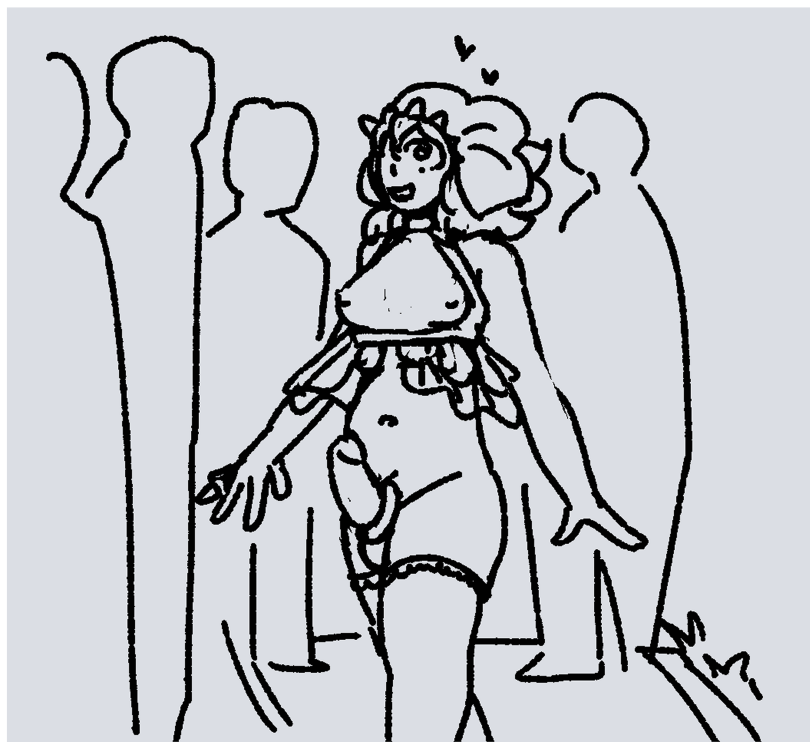

The mailman is also under hypnosis. Probably everyone in this world is under hypnosis to be honest.

Who is the Empress even? Who knows! That's the beautiful thing about an omnipotent mind controlling villain(?) winning(?) is that no one knows how she did it, she just is toying with people's lives! I think that's very fun and a perfect excuse to pull this kind of stuff.

Maybe immediately after, maybe by the next day (gotta leave them to their honeymoon), the Wife shows her Husband to him, completely different from her small slip in embarrassment she had when he saw her.

It's so satisfying.

I didn't have it in me, nor did I have any particular sequential scenario to put this in, but I looove the idea that the Wife could go out in public as she is to show her Husband to *eeeeeveryone* everywhere! The hypnosis makes it so no one bats an eye,

or maybe they do? Everything is perfectly controlled so there's always room for doubt, and that's what makes it so exciting.

You might have noticed, but her Husband became just a little bigger by the end. It might've been the cockring or subtle expansion just like the feminization in her body! However, I'm extremely not normal about hyper cock and the personhood of her Husband would stand out so much more if he expanded until he was almost as tall as her!!!

Not the point of this comic, but ooh man, it's like crack to me.
