Discreen Vision

The secret of the house day 2 was updated in january. The little puppy, Fifi made us work a lot.

I prepared a workroom for myself that time and Fifi was drawn while I rested. I made the loor and when I had a pause I sketched her.

My advice is to stop drawing for some time and make physical work. The ideas will come easier!

Discreen Vision

The characters and their actions:

When you start to draw a character think of her/ his personality. This thing will determine how she/he acts in a situation.

Think of:

What does she/he do?

How does she/he act usually?

How does this character normally stand?

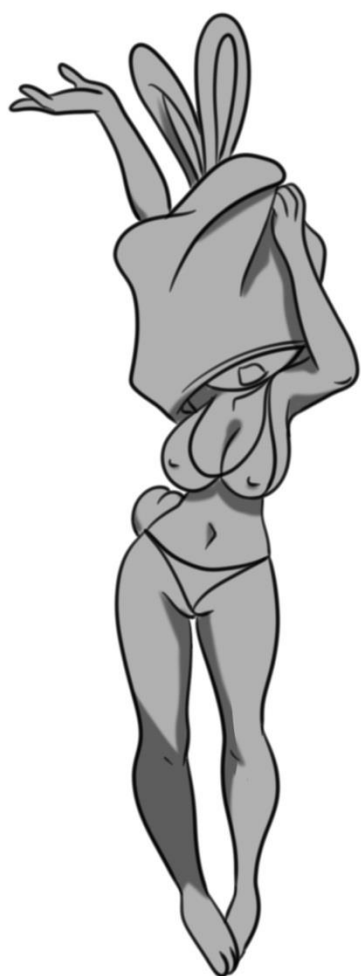

What do I want to say with the image I draw?

Discreen Vision

I will show you some characters.
I took a few minutes to sketch them
after figuring out!

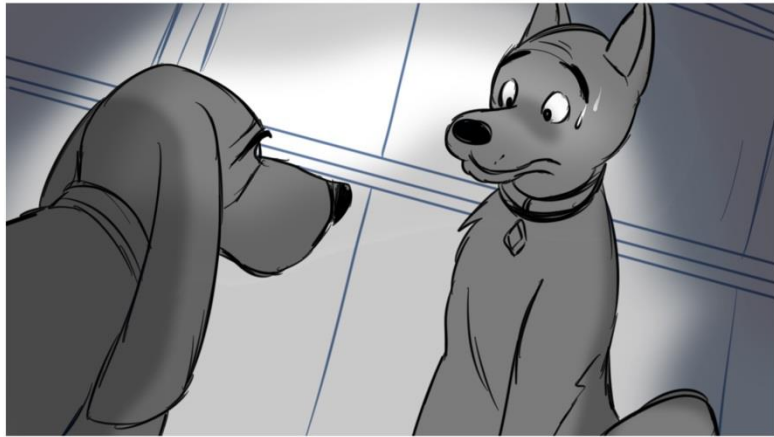

Discreen Vision

I like to play a game: I watch an image or some images and imagine the story myself. I find out personality, I find out how the figures speak...I think about a total story.
It is fun!

Let us try this:

Maria is really angry! Someone peed on the bed last night.

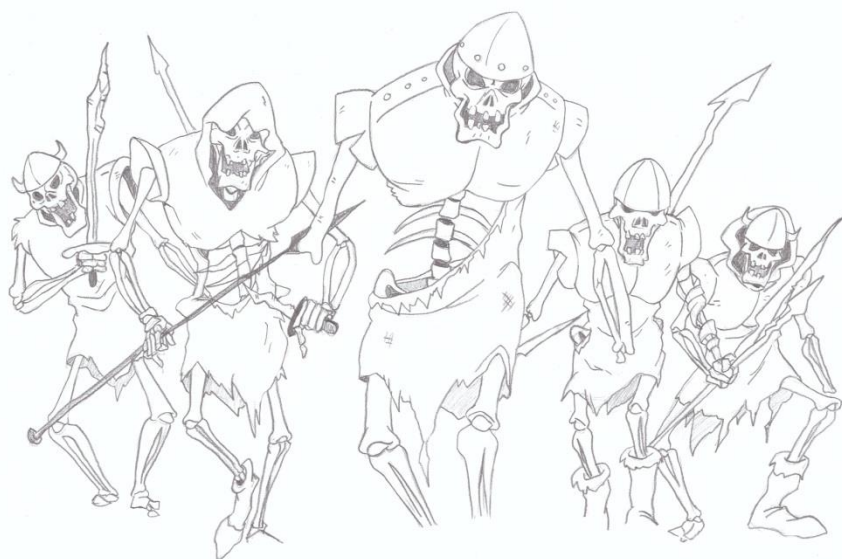

She thinks, it was me! But I know, I did not sleep on the bed.. I slept on the floor next to the door..

Do you know anything about this?

You can play this game and after that you can turn the way around!
Find out a story and draw the scene!
What if the big dog can talk as well?
What would he say?

Discreen Vision

I really enjoyed preparing for the If you do 4 game. Drawing skeletons is fun. My favorite characters are skeletons. They have a lot of options and they have funny sounds. To prepare this image i watched Dragon Lair and The black cauldron, and it seems i was pretty much inspired by them! This is not abad thing! Be inspired by the works of the past!

The hall of
Kings

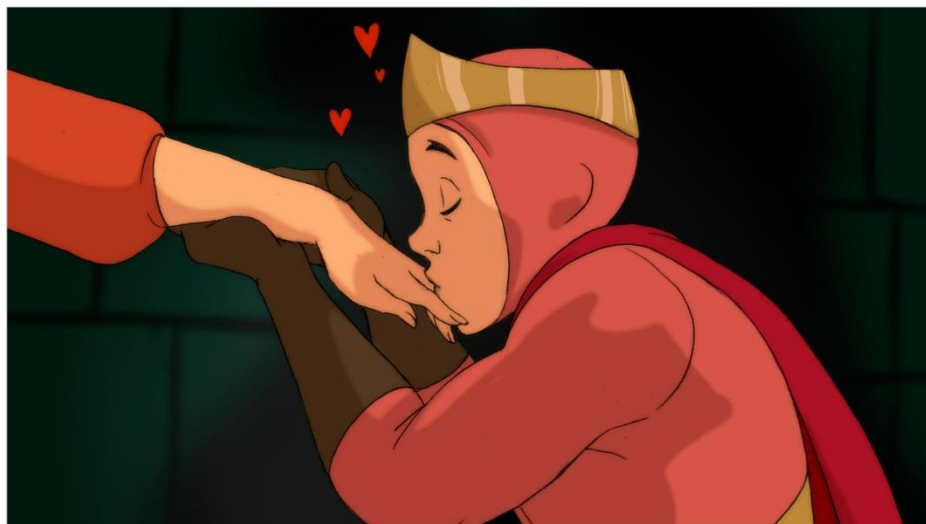

Queen Maria:
a new milf in
the game!

I made sure she
had big boobs and
her dress was
designed to
show them!

Discreen Vision

The magic amulet shows everything. This tool will be helping the kingdom to get rid of enemies!

A hand kiss in just needed for such a beauty!

We see Prince Hugo the first times in this game. he is an idiot.. but you know this from the previous updates XD

Discreen Vision

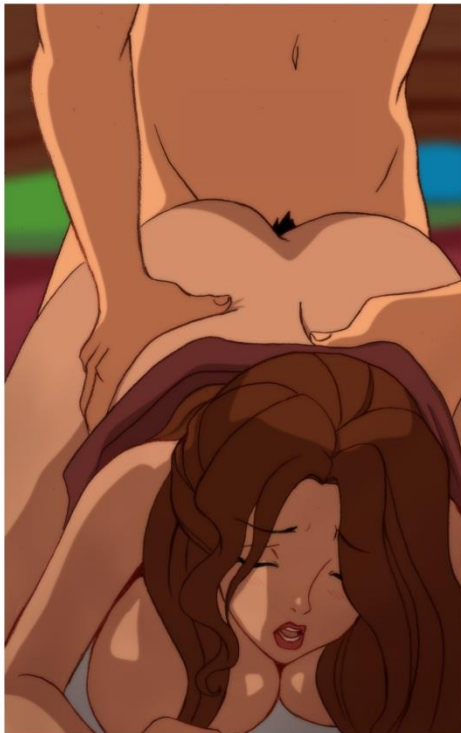

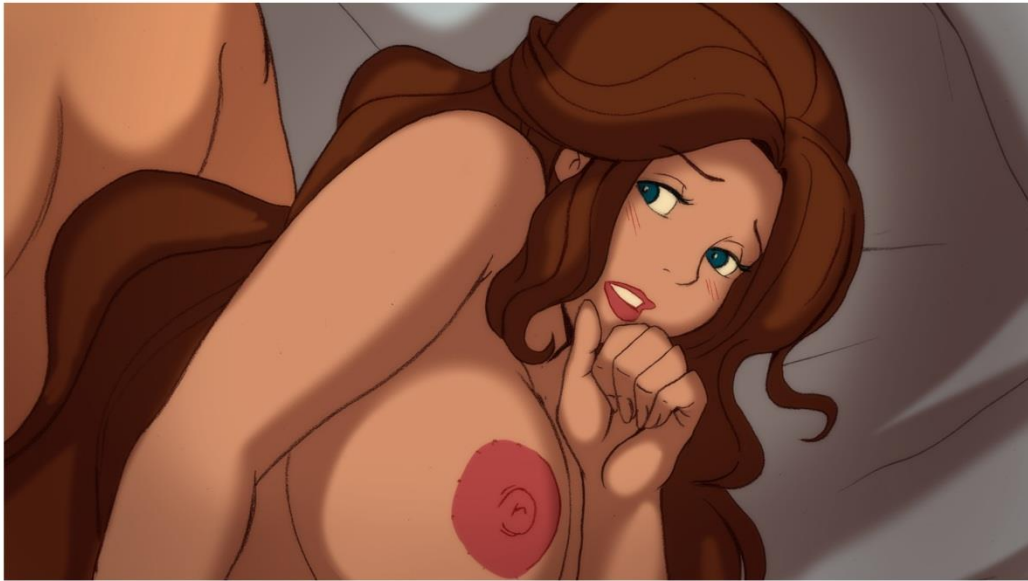

Several backgrounds were painted and I tried to make the atmosphere with the visual effects and with the music.
My favorite is the Witch Castle. Ghosts fly around and the music is so scary and full of mystery.

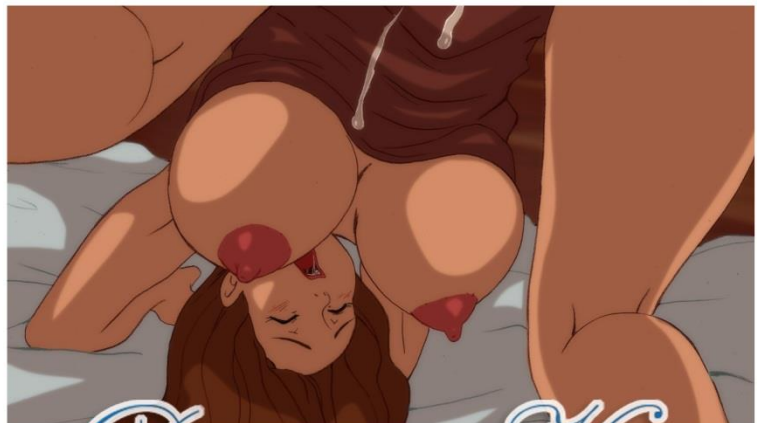

Discreen Vision

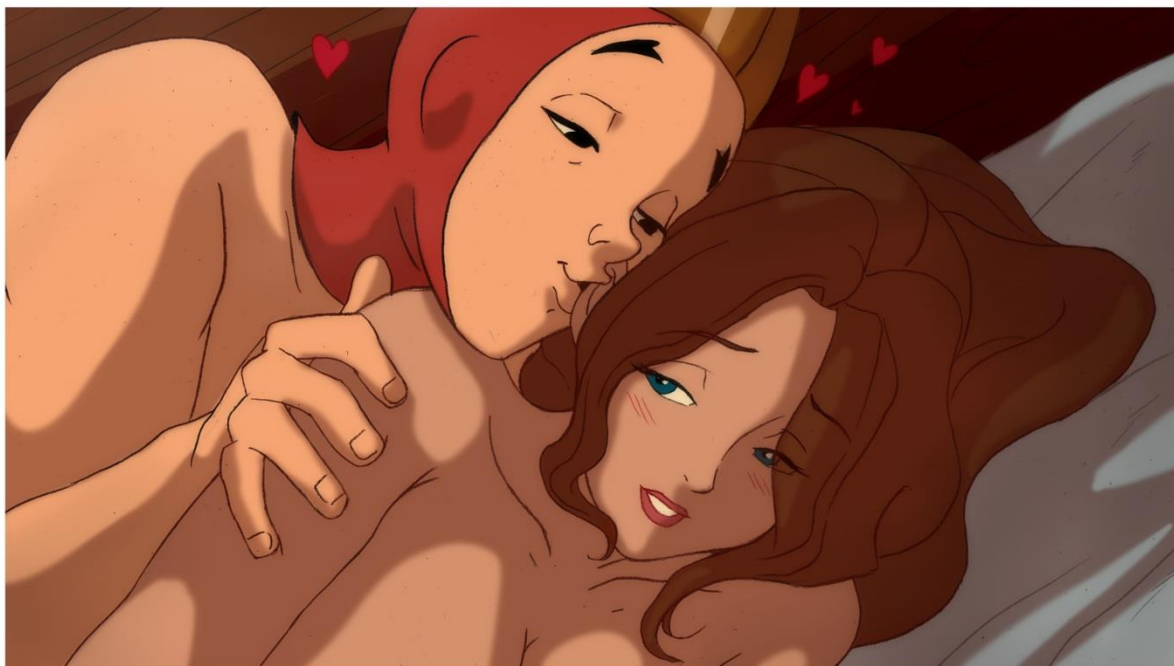

My main focus in this game was Fauna sexually!

I made a lot of scenes there and more animations! She is not slutty there but enjoys sex for sure!

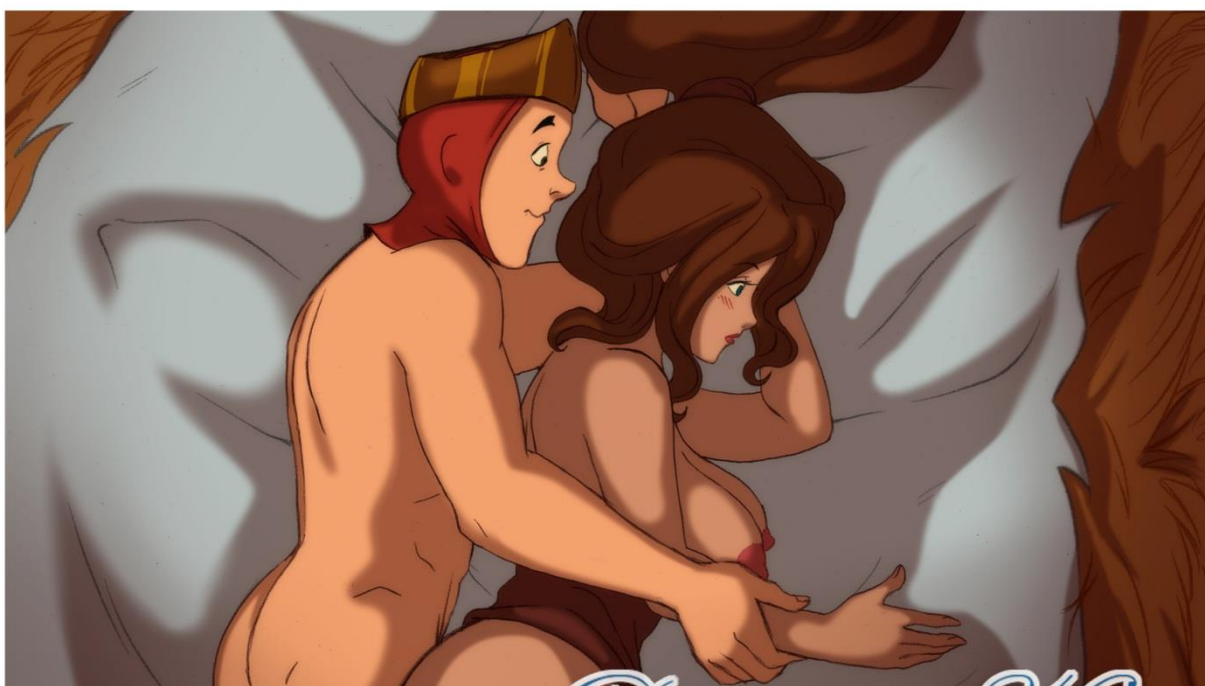

Discreen Vision

To make a kiss like this was strange after a lot of porn stuff and still, it was nice to draw them like that.

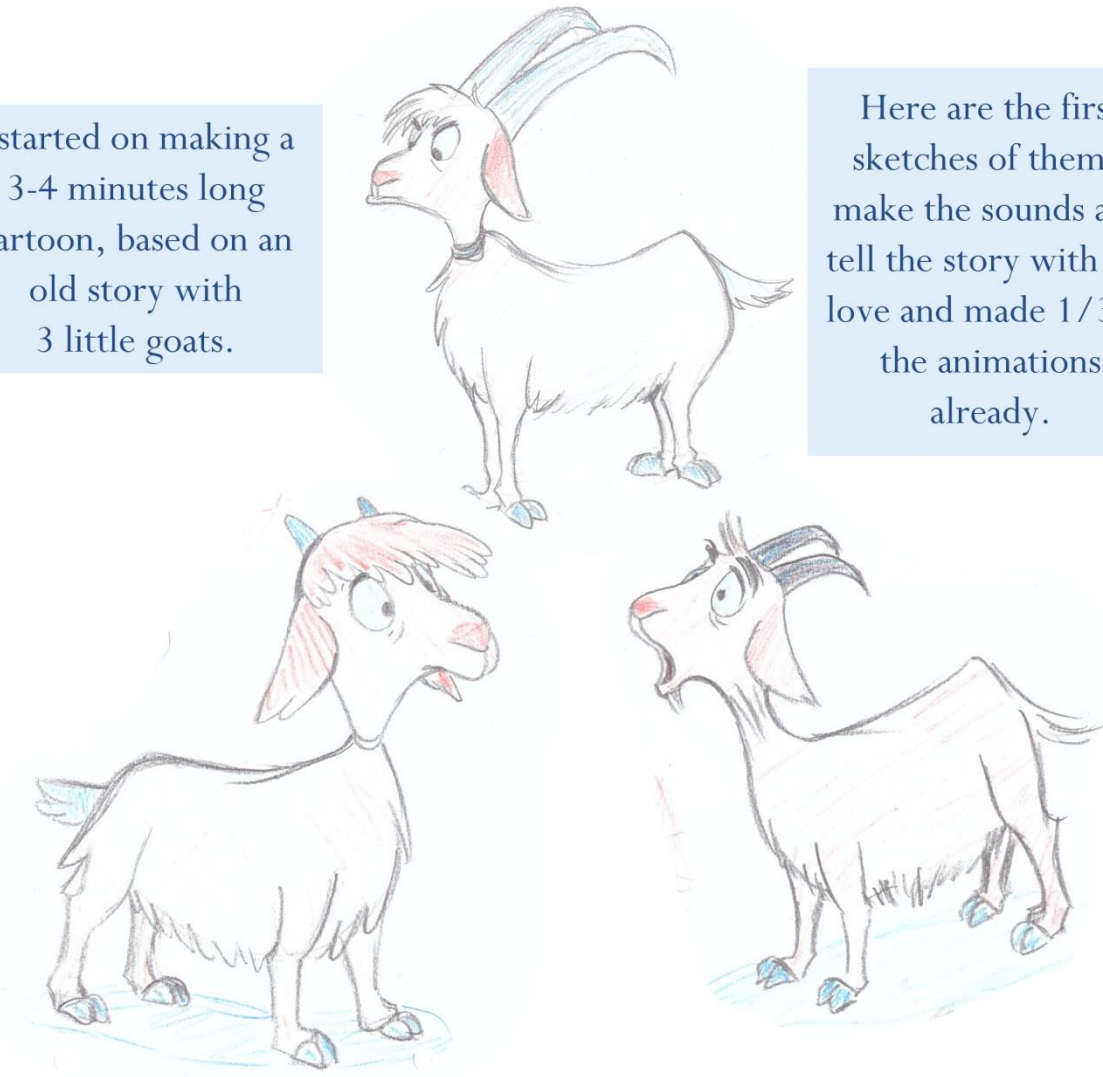

Fauna plays with men and also she is a bit shy. I showed this part of her I guess with her expressions. Her character is a bit difficult to work with, I hope you will like the result!

Discreen Vision

I started on making a
3-4 minutes long
cartoon, based on an
old story with
3 little goats.

Here are the first
sketches of them. I
make the sounds and
tell the story with my
love and made 1/3 of
the animations
already.

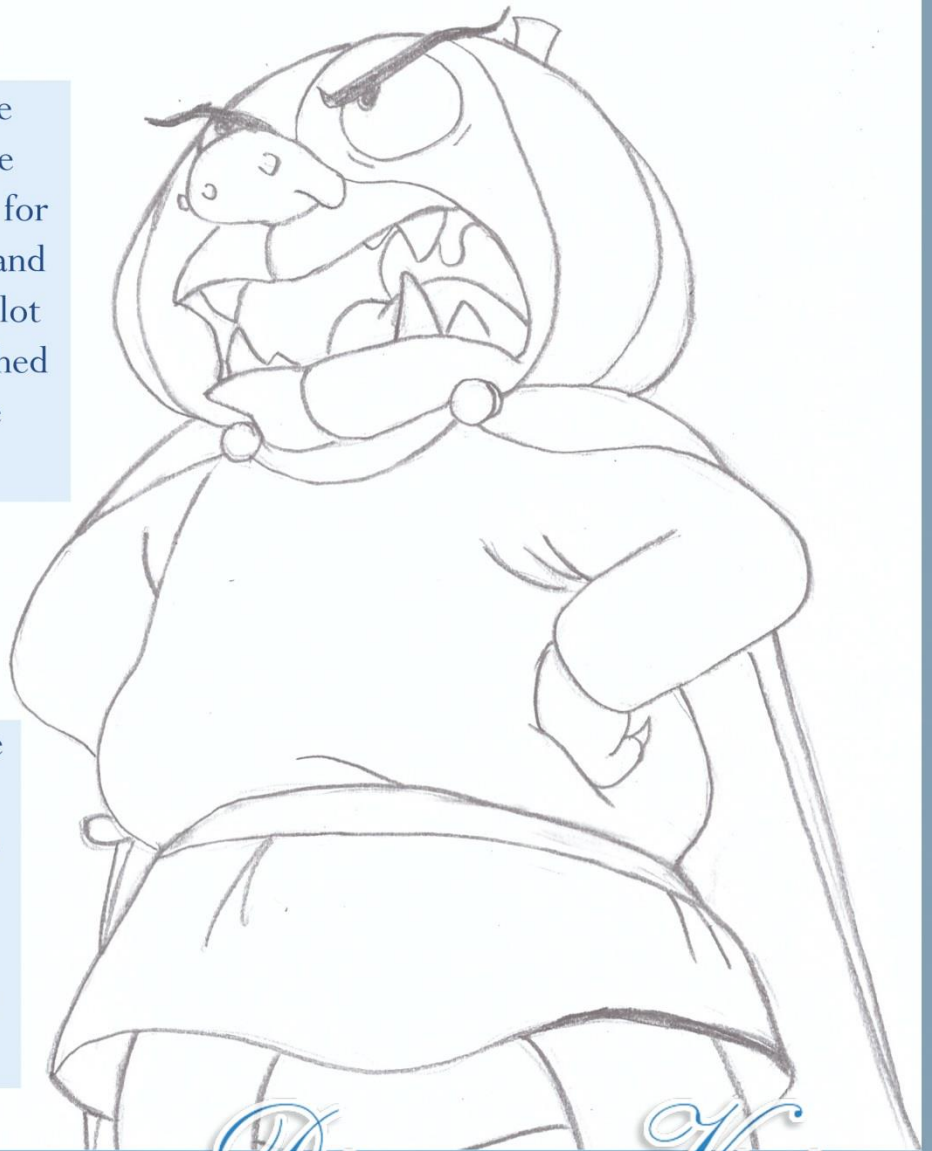

Discreen Vision

We have a bad beast
under the bridge. It
was cool to make a
pumpkinhead beast
this time!

I like to make more
projects at the same
time. If I have an idea for
one, I just sit down and
close my box with a lot
of papers. If I am finished
and go back to the
another project.

Maybe this is just me
but I get really
frustrated if I can do
only one thing.
Good ideas come
easier if you are not
stressed!
